# CURRENT MACROECONOMIC AND FISCAL DEVELOPMENTS

## 1. Current macroeconomic developments

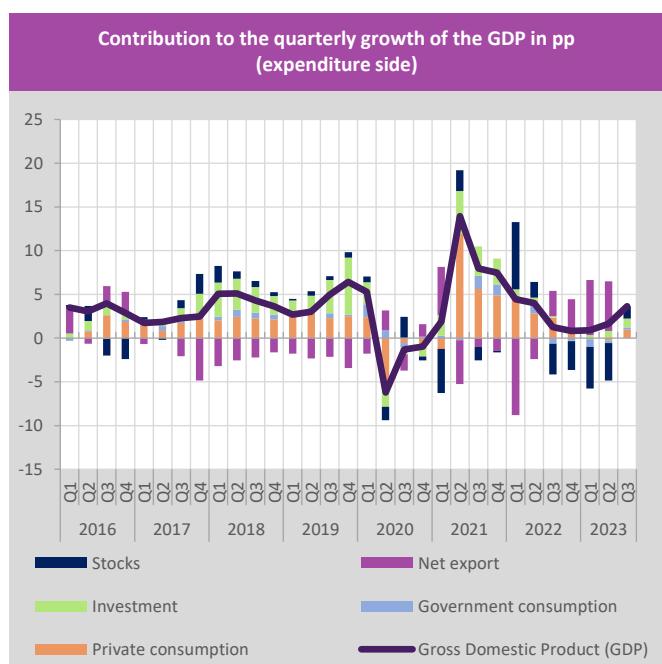

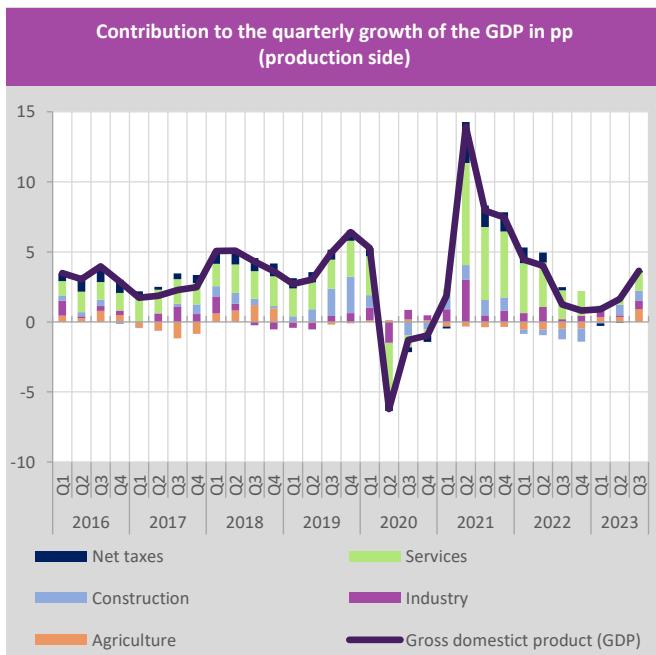

### 1.1. Economic activity

**Gross domestic products.** In the third quarter of 2023, gross domestic product (GDP) recorded a real year-on-year growth of 3.6%, which is an increase of 0.1 pp compared to the flash estimate.

Observed from the production side, in the third quarter, real production growth was recorded in all economic sectors. The most significant positive impact comes from the agriculture sector (0.9 pp), construction (0.7 pp), industry (0.6 pp), information and communication (0.3 pp), as well as wholesale and retail trade and repair of motor vehicles and motorcycles, transportation and storage and accommodation and food services activities (0.3 pp).

Observed by expenditure aggregates, GDP growth in the third quarter 2023 was driven by domestic demand. A positive contribution to GDP growth was achieved by investments (1.0 pp), private consumption (1.0 pp) and government consumption (0.3 pp), with also a positive contribution from changes in inventories (1.4 pp). A neutral contribution to GDP growth came from net exports.

In the third quarter of 2023, seasonally adjusted GDP increased by 1.3% in comparison with the previous quarter. In the first three quarters of 2023, real GDP growth was 2.1% y-o-y.

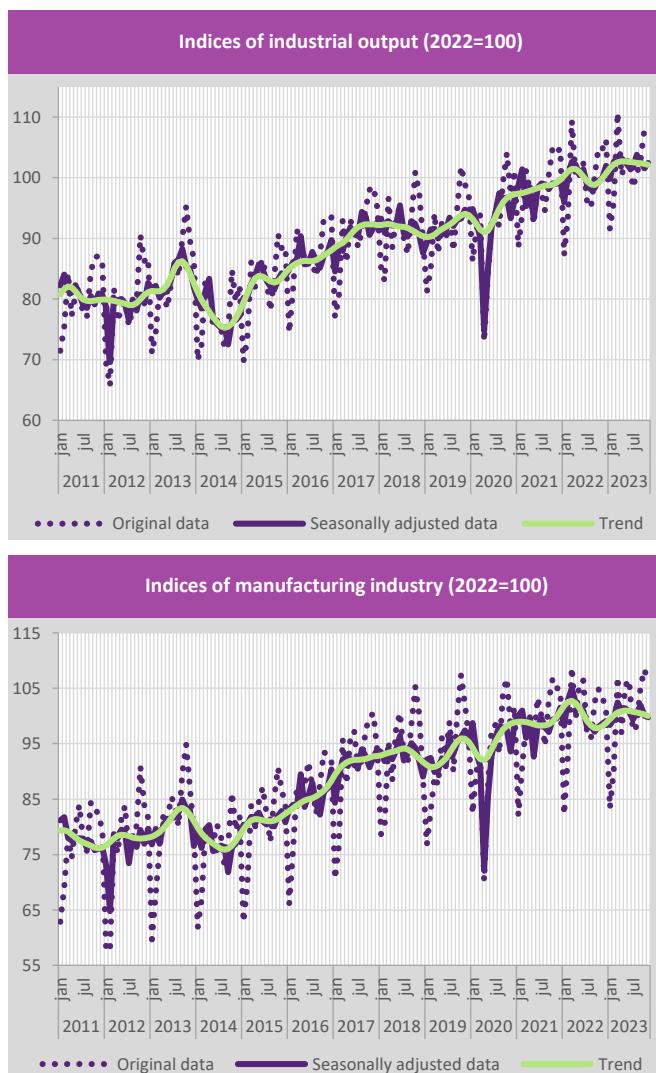

**Industrial production.** According to the Statistical Office of the Republic of Serbia (SORS) data, industrial production in November 2023 has increased annually by 3.6%, while compared to the average industrial production in 2022 increased by 8.4%. The largest influence on industrial production growth in November 2023 compared to November 2022 had the divisions of: electricity, gas, steam and air conditioning supply, manufacture of basic metals, manufacture of basic pharmaceutical products and pharmaceutical preparations, manufacture of computer, electronic and optical products, as well as manufacture of other transport equipment.

Observed by NACE Rev. 2, in November 2023, annual increase was recorded in electricity, gas, steam and air conditioning supply (10.3%) and manufacturing (2.4%), while the level of production in mining and quarrying was unchanged compared to the same month of the previous year. The largest increase in production was recorded in manufacture of other transport equipment (125.7%), while manufacture of leather and related products has decreased the most (-19.6%).

The industrial production volume in November 2023, in comparison to the same month in 2022, recorded an increase within 15 divisions, which accounts for 60% of the total industrial production, while a decrease in 14 divisions, which accounts for 40% of the total industrial production.

Observed by the Main industrial groupings (MIGs), in November 2023, compared to November 2022, an increase was recorded in the production of capital goods (4.4%), intermediate goods, except energy (4.2%), non-durable consumer goods (3.6%) and energy (2.7%), while a decrease was recorded in the production of durable consumer goods (-2.5%).

In the first eleven months it was recorded an increase of industrial production of 2.6% y-o-y. Observed by MIGs, the main contribution to the increase of industrial production came from the production of energy of 4.8%, as the result of the growth of electricity, gas, steam and air conditioning supply. The production of capital goods increased by 7.4%, mostly due to the increase in the production of machinery and equipment n.e.c., motor vehicles, trailers and semi-trailers, as well as production of computer, electronic and optical products. The pharmaceutical industry had the most significant positive contribution to the growth of non-durable consumer goods of 2.4%. On the other hand, the decline in production of intermediate goods except energy of 0.6% was mostly due to the decline in production of fabricated metal products, except machinery and equipment. Also, the production of durable consumer goods decreased by 2.3%, due to the decline in furniture production.

The seasonal adjustment of the industrial production index for November 2023, compared to October 2023, indicates an increase of 0.4% of the overall industrial production, and a decrease of 1.2% of manufacturing.

According to the SORS data, in November 2023 stocks increased by 1.9% compared to November 2022. The largest growth was in the stocks of manufacture of computer, electronic and optical products (106.0%), while the largest annual decrease in stocks in

November was recorded in the stocks of mining of metal ores (-79.3%).

**Retail trade turnover.** Retail trade turnover in November 2023 increased by 9.7% in nominal terms, while in real terms turnover registered an increase of 3.6% in comparison with November 2022. Compared to the average monthly retail trade turnover in 2022, the retail trade turnover in November 2023 increased by 3.2% in real terms. Compared with the previous month, retail turnover in real terms registered a decrease of 1.3%.

Annual growth of the category food, beverages and tobacco in November was 12.6% in nominal terms, while in real terms is registered an increase of 3.1%. Category non-food products, except automotive fuel increased in nominal terms by 13.7% and increased by 6.3% in real terms. Motor fuel's turnover decreased by 3.5% in nominal terms and decreased by 0.8% in real terms.

Year-on-year increase in the retail trade turnover in November in nominal terms was observed in all the regions: Srbija – Jug by 11.3% and Srbija – Sever by 8.7% (Region Vojvodina by 11.6%). Observed in real terms, an increase in the retail trade turnover was registered in all regions and the highest real increase was observed in Region Srbija – Jug by 6.3%.

In the period January–November of 2023 in comparison with the same period of the previous year, the retail turnover increased by 8.4% in nominal terms, whereas in real terms registered a decrease of 2.8%.

**Tourism.** Annual growth in the number of tourists' visits was registered at 1.3% in November 2023. In the same time, the number of overnight stays decreased by 7.3% compared to the same month of the previous year. The number of foreign tourists' visits increased by 13.6%, while the number of their overnight stays increased by 4.2%. Share of the foreign tourists' visits and their overnight stays is 53.0% and 49.7%, respectively. The number of domestic tourists' visits decreased by 9.6%. Also, the number of domestic tourists' overnight stays decreased by 16.4%, compared to the same month in 2022.

Most of the tourists in November 2023 originated from Türkiye, Bosnia and Herzegovina, Russia, Croatia and Montenegro (39.9% of the total number of foreign tourists' visits and 40.0% of their total overnight stays). In November, city of Belgrade had the largest number of tourist arrivals (39.4% of the total number of arrivals). A higher number of domestic tourists compared to number of foreign tourists was recorded in spas and mountain resorts, whereas in the other places most of the tourists were foreigners with share of 67.3% in the total number of arrivals (of which, foreign tourists share in the city of Belgrade was 85.3%).

In the period January–November of 2023, the number of tourists and their overnight stays totalled 3,879,423 and 11,624,372, respectively. The number of tourists' visits increased by 8.3% and the number of their overnight

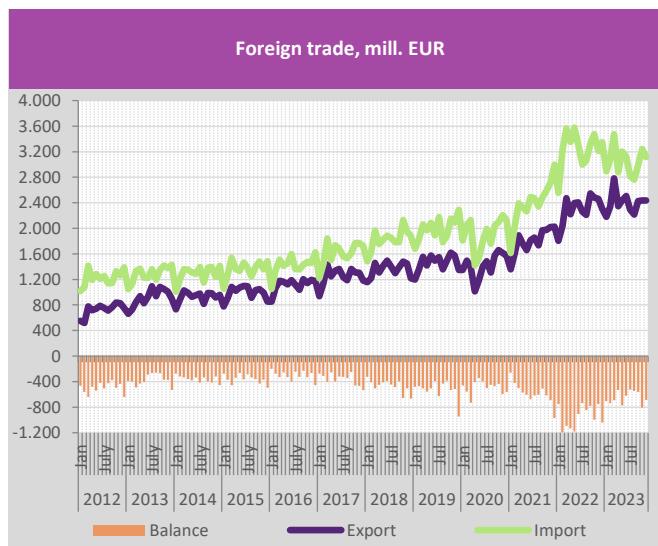

stays increased by 1.4%, compared to the same period of 2022. The number of foreign tourists' visits and their overnight stays recorded an increase of 21.4% and 13.9%, respectively. In the same time, the number of domestic tourists' visits decreased by 2.5%, while their overnight stays decreased by 6.7%.

## 1.2. External Trade and Balance of Payments

**External trade.** In November 2023, it was exported EUR 2,433.5 million of goods, which is lower by 1.0% compared to the November 2022. The most contribution to the year on year decline of exports came from export of metal ores and electricity, while positive trends continued in the manufacturing industry. Import of goods amounted to EUR 3,118.1 mill., which is lower by 2.9% compared to the same month in previous year.

Foreign trade deficit amounted to EUR 684.6 million, which is lower by 9.0% compared to the same month in previous year, while 78.0% of the imports was covered by the exports.

Seasonally adjusted series shows that in November 2023 in comparison to the previous month, export increased by 1.3%, while import decreased by 2.5%.

In the period January–November of 2023, exports amounted to EUR 26,424.6 million, which is higher by 4.5%, while imports amounted to EUR 33,580.0 million, which is lower by 5.8%, compared to the same period of previous year, primarily due to the drop in the value of energy imports. During the observed period, trade deficit amounted to EUR 7,155.3 million, which is lower by 31.0%, compared to the same period of previous year.

According to the SITC sections, in the first eleven months of 2023, the largest share in the exports came from the export of electrical machinery and apparatus (12.7%). Significant share in the exports also came from power engines and motors, metal ores and residues, electricity, rubber products, n.e.c., which including electrical machinery amounted for 32.6% of total exports. In observed period, 25.3% of total imports came from electrical machines and apparatus, oil and oil derivatives, road vehicles, medical and

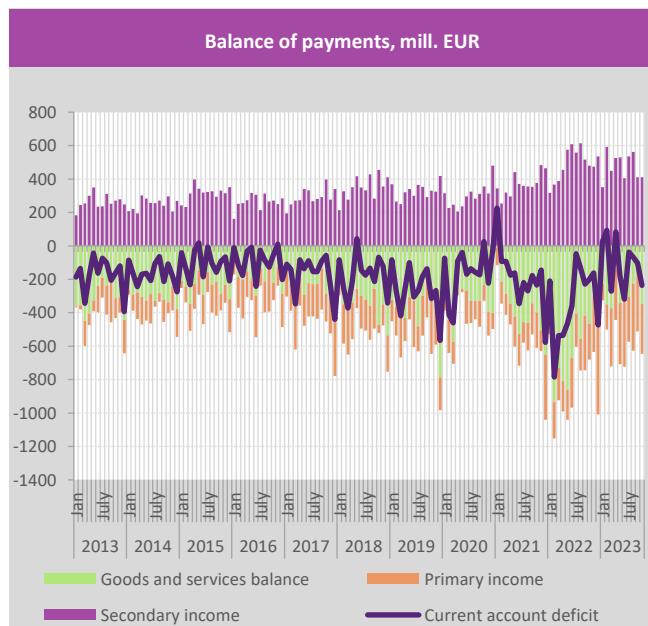

pharmaceutical products and general purpose machinery, n.e.c.

In observed period, positive trade balance (EUR 2,737.3 million) was achieved by the following sectors: crude materials, miscellaneous manufactured products, food and live animals, beverages and tobacco, animal and vegetable oils and machinery and transport equipment.

In the first eleven months in 2023, the largest external trade partners were EU countries on which related 63.3% of total exports and 57.0% of the total imports. In observed period, 38.7% of the total exports were related to the trade with: Germany, Bosnia and Herzegovina, Italy, Hungary and Romania. Imports from Germany, China, Italy, Türkiye and Russia accounted for 41.7% of the total imports. Surplus of EUR 3,648.1 million was achieved in external trade with Montenegro, Bosnia and Herzegovina, North Macedonia, Romania, Slovakia, Croatia, Sweden, Czech Republic, Bulgaria, United Kingdom, Hungary, and Republic of Moldova. The largest deficit was achieved in external trade with China (due to imports of telephones for network stations and laptops), Türkiye and Italy.

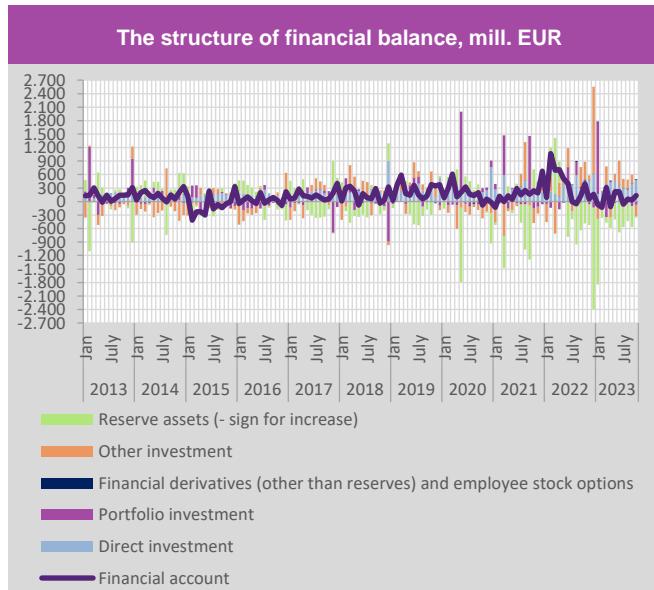

**Balance of payments<sup>1</sup>.** In October 2023, the current account recorded a deficit of EUR 236.1 million. Compared to October of the previous year, the current account deficit has slightly increased. The goods account recorded a deficit, which is lower by 16.9% compared to the same month of previous year, while the services account recorded a surplus, which amounted to EUR 303.1 million.

In October 2023, net inflow of foreign direct investments amounted to EUR 483.4 million. The total inflow based on FDI amounted to EUR 520.5 million.

<sup>1</sup> Since April 2014, Balance of Payments of the Republic of Serbia is being presented according to the Balance of Payments Manual and international investment position, VI edition of the International Monetary Fund (BPM6).

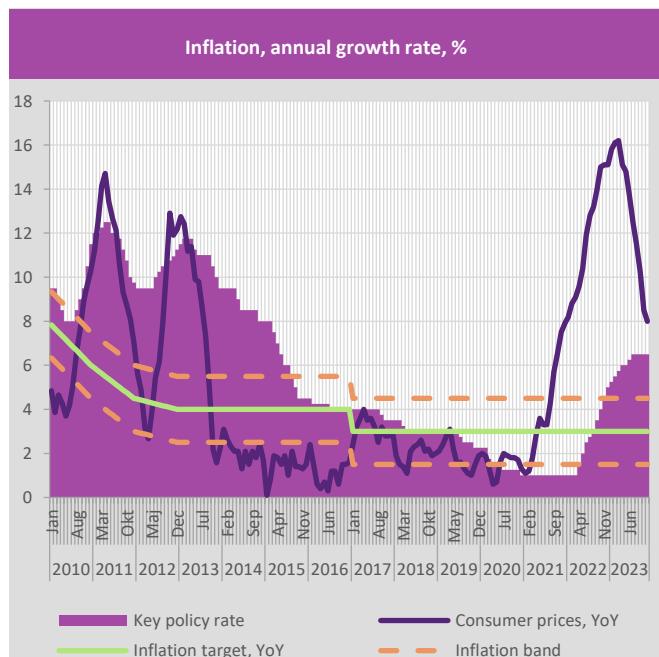

In the first ten months of 2023, the current account recorded a deficit of EUR 1,010.6 million, which is a EUR 2.5 billion smaller deficit than in the same period of the previous year due to a significant reduction in the deficit on the goods and services account. The trade deficit is lower by EUR 2,863.4 million, while surplus in the services account increased by EUR 692.4 million and amounted to EUR 2,417.4 million. In the observed period, the primary income deficit increased by EUR 960.0 million or 45.6% year on year, while the surplus of secondary income amounted to EUR 4,770.8 million.

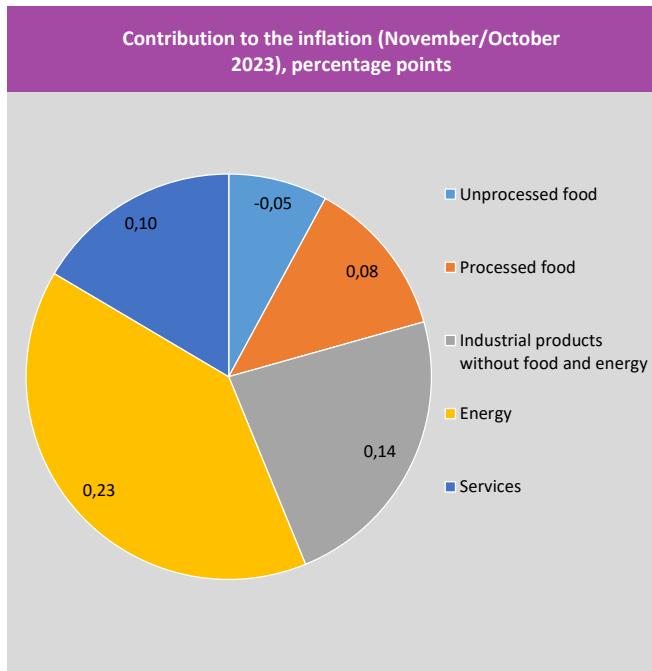

In the observed period, the net inflow of foreign direct investments amounted to EUR 3,477.2 million, which represents an increase of 7.7% compared to the same period of the previous year. Also, at the same time, a net inflow of portfolio investments was recorded in the amount of EUR 1,017.5 million.

### 1.3. Inflation

In November 2023, the growth of consumer prices continued to slow down, so it amounted to 8.0% year on year. In this period, slightly less than half of the inflation was determined by the increase in prices of food.

On the monthly basis, consumer prices increased in November by 0.5%.

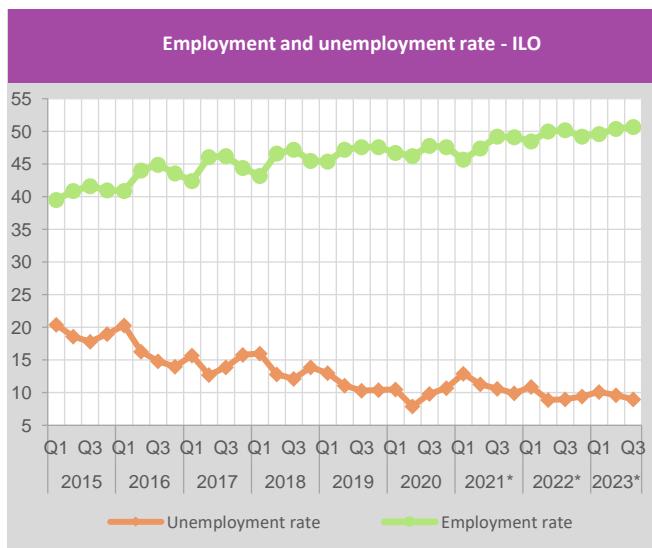

At the same time, core inflation was significantly lower and amounted to 7.0% y-o-y, which was significantly influenced by the preserved stability of the exchange rate and by inflation expectations of the financial sector within the target.

### 1.4. Labour market

Looking into the data from the CROSO registry average number of formally employed in November 2023 increased by 0.9%, y-o-y, which is primarily the result of growth in employment in the private sector. At the same time, most significant growth in employment was recorded in scientific and technical activities, health care and ICT.

According to data from the Labour Force Survey in the third quarter of 2023, there was a year-on-year increase in the employment rate by 0.5 pp to 50.7%, while the unemployment rate remained the same and totalled 9.0%, while at the same time the rate of the population outside the labour force decreased by 0.7 pp.

\* ILO data from 2021 are provided according to the new methodology.

According to the National employment agency data at the end of November, number of unemployed persons actively seeking employment totalled 386.8 thousands, which is a decline compared to the same month of the previous year by 9.8%.

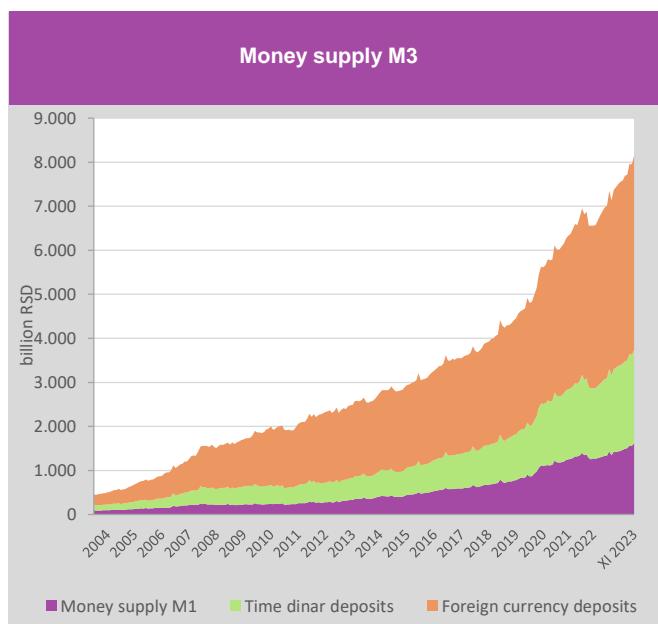

**Salaries.** In October 2023, the average net salary increased by 6.1%, y-o-y, in real terms. Observed by activities, the most significant real wage growth was recorded in manufacturing, trade and education.

**Pensions.** Average paid pension in November 2023 increased compared to the same month of previous year by 9.4%, in real terms, and amounted to RSD 39,861.

## 1.5. Monetary developments

In November 2023, NBS kept its key interest rate at the level of 6.50%.

Through November, banks as largest single investors in state treasury bills kept their invested funds on that basis at the same level. Compared to the same month in the previous year, banks decreased their invested funds by RSD 33.8 billion.

At the end of November 2023, compared to same month of the previous year, bank loans to economy registered decrease of 2.0%, while loans to households increased by 1.0%. At the same time, bank deposits registered growth of 12.3%. In structure of loans to economy by destination, biggest share had loans for current assets and investment loans (44.5% and 39.9%, respectively), with yearly decrease of loans for current assets by 3.7% and increase of investment loans by 2.1%. At the same time at loans landed to households, biggest share had cash loans (44.5%) with yearly growth of 3.2% and housing loans (39.0%), which decreased by 1.0% yearly.

In structure of bank sources of funds, dominant share had borrowed sources. At the end of November 2023, in total fund sources borrowed sources share was 87.4%, which is a decrease of 0.2 pp y-o-y, while in comparison to the previous month remained unchanged. In currency structure of funds, foreign currency sources share was 49.1%, and compared to the same month of previous

year decreased by 3.0 pp, while compared to the previous month decreased by 0.2 pp.

NBS foreign exchange reserves decreased by EUR 225.7 million compared to previous month, while compared to the same month of previous year increased by EUR 6.9 billion and totalled EUR 24.2 billion at the end of November 2023. The November decrease in gross FX reserves reflects the net repayment of government debt in respect of FX loans and the settlement of other FX liabilities, as well as the withdrawal of banks' FX required reserves and the NBS's FX interventions in the local FX market. Level of NBS foreign exchange reserves was sufficient for coverage of 175.1% of M1 monetary aggregate and for coverage of around 6.5 months of imports of goods and services.

Household foreign currency savings at the end of November 2023 compared to previous month increased by EUR 94.0 million and totalled EUR 14.2 billion. Compared to same month of the previous year foreign currency savings increased by EUR 0.6 billion.

Developments on the foreign exchange market in November 2023 compared to previous month were characterized by real appreciation of dinar against Euro of 1.0%, while in nominal terms remained unchanged. In comparison to the same month of the previous year, foreign exchange rate recorded nominal and real appreciation of 0.1% and 5.6%, respectively. In order to mitigate extensive daily oscillations of exchange rate, NBS throughout November intervened on the foreign exchange market by net selling EUR 60 million.

## 1.6. Financial markets

In November 2023 Belgrade stock exchange registered total turnover of securities in amount of RSD 763.6 million, from which turnover of shares and Republic of Serbia bonds (RS bonds) totalled RSD 123.2 million and RSD 640.5 million, respectively. In comparison to the same month of previous year, total turnover decreased by 79.4%. Total number of transactions decreased from 2,090 in November 2022 to 1,349 in the same month of 2023.

Total market capitalization at the end of November 2023 amounted to RSD 424.2 billion and increased by 0.2% compared to previous month, while compared to same month of previous year increased by 4.1%.

In November 2023 foreign investors share in total turnover accounted for 0.89% and decreased by 0.51 pp in comparison to same month of the previous year. Share of foreign investors in turnover of shares decreased by 8.55 pp and amounted to 1.09%, while the turnover of foreign investors in RS bonds amounted to 0.85%, which represents an increase of 0.84 pp compared to same month in the previous year.

During November 2023 on Belgrade stock exchange index BELEXline registered increase in value of 1.5% and totalled 1,868.72 index points, while the value of

BELEX15 index increased by 0.2% and totalled 877.71 index points. Compared to the same month of the previous year, index BELEXline increased by 5.6% and index BELEX15 increased by 7.6%.

## 1.7. International environment

According to the Eurostat's estimation, GDP growth in Q3 2023 in the euro area and the EU27 decreased by 0.3% and 0.2%, respectively, compared to the same quarter 2022, while comparing to the previous quarter decreased by 0.1% and 0.0%, respectively. According to the Autumn EC outlook, the projected growth will amount to 0.6% in 2023, with mild growth increase to 1.6% in 2025, while the average yearly inflation will slow from 5.6% in 2023 to 2.2% in 2025. Uncertainty and risks to the projection are even more pronounced during the last months and relate to the further course of the conflict in Ukraine and the Middle East, the potential vulnerability of the energy market and persistent price pressures, as well as climate change.

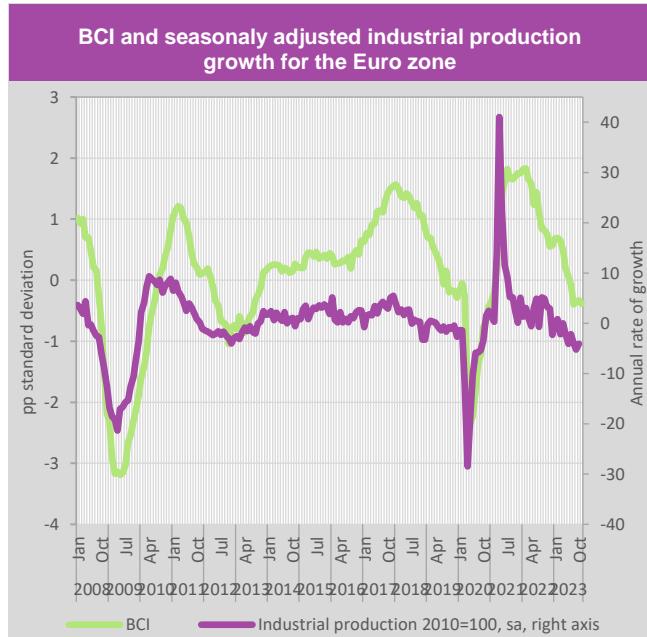

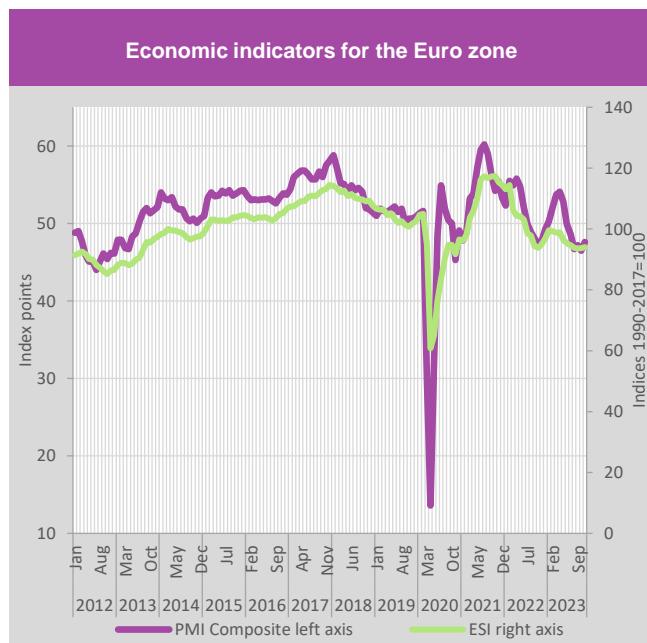

Average prices of agriculture products have increased by 0.2% in November 2023 compared to the previous month, while food prices increased by 0.7%. Base metal prices increased by 4.5%, compared to the previous month, while the price of iron ore increased by 3.1%, cooper prices increased by 10.5%. According to the World Steel Association, world production of steel increased by 3.3% y-o-y, while in China increased by 0.4% y-o-y (which is somewhat more than a half of World production). In the group of precious metals, the price of gold increased by 3.8%, while the price of silver increased by 4.8%.

Value of the Composite PMI index in November amounted to 47.6 ip (up by 1.1 ip compared to previous month), due to the negative developments of manufacturing and services sector output. Economic Sentiment Indicator (ESI) increased by 0.4 ip in the EU27 (93.8 ip), while in the euro area increased by 0.3 ip (94.0 ip), compared to previous month.

At the end of November 2023, the unemployment rate in the euro area and EU27 amounted to 6.4% and 5.9%, respectively. At the same time, unemployment rate in Germany and Italy was 3.1% and 7.5%, respectively. At the same time, according to the data of the Russian Statistical Office, in the Russian Federation the unemployment rate was 3.0%.

Trend of inflation during November decelerated, when inflation of 2.4% was registered in the euro area, while inflation of 3.1% was recorded in the EU27. At the same time, inflation of 2.3% and 0.6% was registered in Germany and Italy, respectively. Observed by categories the increase in the prices was recorded in services, food, alcohol and tobacco and non-energy

industrial goods, while energy recorded decrease in prices. In Russia, the annual inflation reached 7.5%.

In October, ECB decided to keep the interest rate at the level of 4.50%. In order to adjust monetary policy toward inflation stabilisation, PEPP and APP programmes will be gradually reduced, while the monitoring of refinancing terms of banks will be continued. In October, FED kept key interest rate to an interval of 5.25% to 5.50%.

According to the OPEC data, the price of oil type Urals has amounted to 74.58 \$/barrel in November, which is 10.5% lower compared to the previous month. Since the beginning of 2023, the price decreased by 20.3% compared to the same period 2022 and amounted to 64.39 \$/barrel.

\* Preliminary annual data. \*\* Estimation. <sup>1</sup> The data refers to the period January–September 2023 (the same period of the previous year=100). <sup>2</sup> From 01/01/2010 Telekom Srbija, Joint Stock Company ceased to observe impulses in fixed network domestic traffic and started to present the subject services in minutes. <sup>3</sup> Including turnover generated by legal entities and entrepreneurs. <sup>4</sup> From 2022, data on tourist traffic (number of tourist arrivals and overnight stays) and accommodation capacities are published on the basis of statistical processing of data taken from the administrative source, the Central Information System in Catering trade and Tourism (eTourist). <sup>5</sup> Index shall be accounted according to the data compiled for producer's price index for industrial products in domestic market and producer's export price index for industrial products. <sup>6</sup> Since January 1st 2010 general trade system has been introduced. Data for 2007, 2008 and 2009 changed according to new methodology. <sup>7</sup> Since April of 2014 Balance of Payments of the Republic of Serbia is shown by the Manual of balance of payments and international investment position, the sixth edition of the International Monetary Fund, the 2009th (BPM6). Accordingly, data for year 2012 and 2013 are corrected. <sup>8</sup> Since September 2010 methodology for the external debt statistics has been changed. NBS has revised the data to the external debt since 2009. <sup>9</sup> GFS-1986 methodology. <sup>10</sup> Data on foreign currency savings since December 2012 according to new methodology of NBS. <sup>11</sup> SORS changed data for employment. Without registered individual agricultural workers. <sup>12</sup> Data from 2010, given according to the new methodology, which has been in use since 2021, refers to the population aged 15 and over. <sup>13</sup> New methodology for salaries, SORS applied from January 2009, from January 2018 the average salary is calculated on the basis of data from the Tax Administration records. <sup>14</sup> Since 2012 with professional army servicemen. <sup>15</sup> Data refers to January–October. <sup>16</sup> Data was calculated on the basis of demographic estimates for 2022, according to 2022 Population Census, and are not comparable with previous data. Data for 2023 refer to the third quarter.

<sup>1</sup> Since September 2010 methodology for the external debt statistics has been changed so that the external public debt includes obligations under the IMF SDR allocation, which was used in December 2009, as well as capitalized interest to Paris Club creditors, while the loans concluded before December 20, 2000, under which the payments have not been effected, are excluded from the external debt of the private sector.<sup>2</sup> NBS has revised the data to the external debt since 2009.

<sup>3</sup> According to the methodology of GDP - ESA 2010.

<sup>1</sup> New methodology for salaries, which is applied from 2009 as SORS extended coverage of observation units. In calculation of average salaries, beside salaries paid to employees in enterprises, institutions and organizations, into account are taken also salaries paid to entrepreneurs, from January 2018 the average salary is calculated on the basis of data from the Tax Administration records. <sup>2</sup> Every year in Health and social work section half of salary is paid in December and another half in January. <sup>3</sup> Since 2012 with professional army servicemen.

\* not including activated guarantees for PE Roads of Serbia, which are included in debt repayment to foreign creditors

\*\* 16.9 billion RSD of 39.5 billion RSD on domestic borrowing in July 2009 belongs to PE "Serbian Roads" used for repayment of debt to creditors

\*\*\* including repayments of Old foreign currency savings and Loan for economic recovery (Rehabilitation loan)

\*\*\*\* Subsidies incl. RSD 23.4 bln for PE Srbijagas debt and RSD 10.1 bln for subsidies in agriculture. Social assistance incl. RSD 10 bln for military pensions. Total sum included under domestic borrowing

\*\*\*\*\* Subsidies incl. RSD 13 bln for Petrohemija debt assumption

Note: The Budget System Law envisages the dynamics of the inclusion of entities in order to achieve a comprehensive coverage of the general government sector, in accordance with international standards.

According to the predicted dynamics, beneficiaries of the funds of the Republic Fund for Health Insurance, with all sources of financing, are included in the reporting from January 1st, 2023. According to the above, the data for the general government sector in 2022 and 2023 contain both revenues and expenditures from own and other sources of financing (except those from the Health Fund) of health institutions, while the comparability of the series for the years before 2022 will be provided in the following period.

\* Column Republic budget in accordance with the Budget of the Republic of Serbia from this year includes expenditures financed from project loans disbursed by institutions that belong to the Republican level.

\*\* not including activated guarantees for PE Roads of Serbia, which are included in debt repayment to foreign creditors

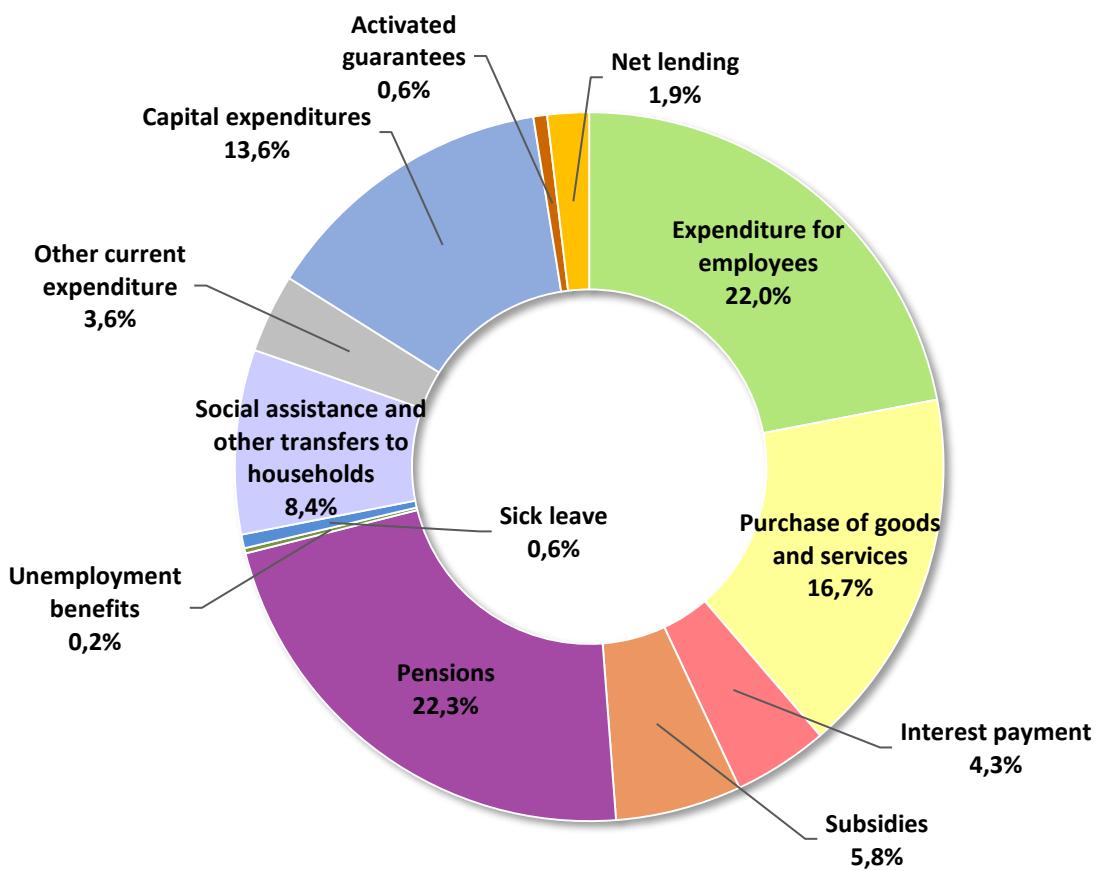

\*\*\* primary balance: interest collected is excluded from the total revenues, interest paid is excluded from the total expenditures

Note: in column no. 12. displayed are the results of transfers from and to other government levels. The result is corrective factor for other current expenditures.

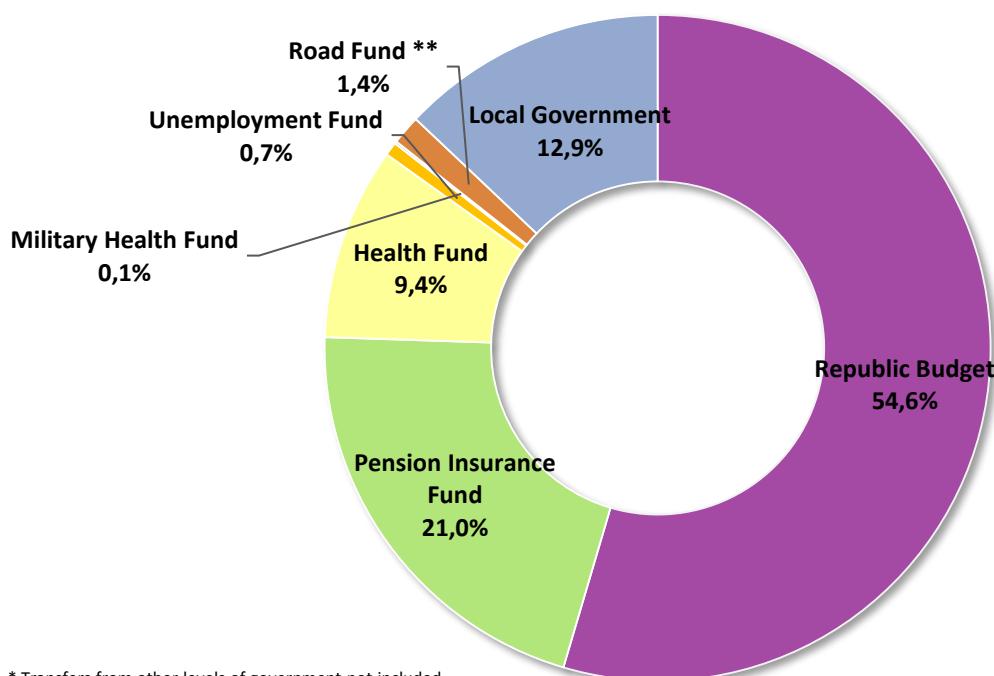

### Structure of general government revenues, in Jan-Nov 2023

### Structure of general government expenditures, in Jan-Nov 2023

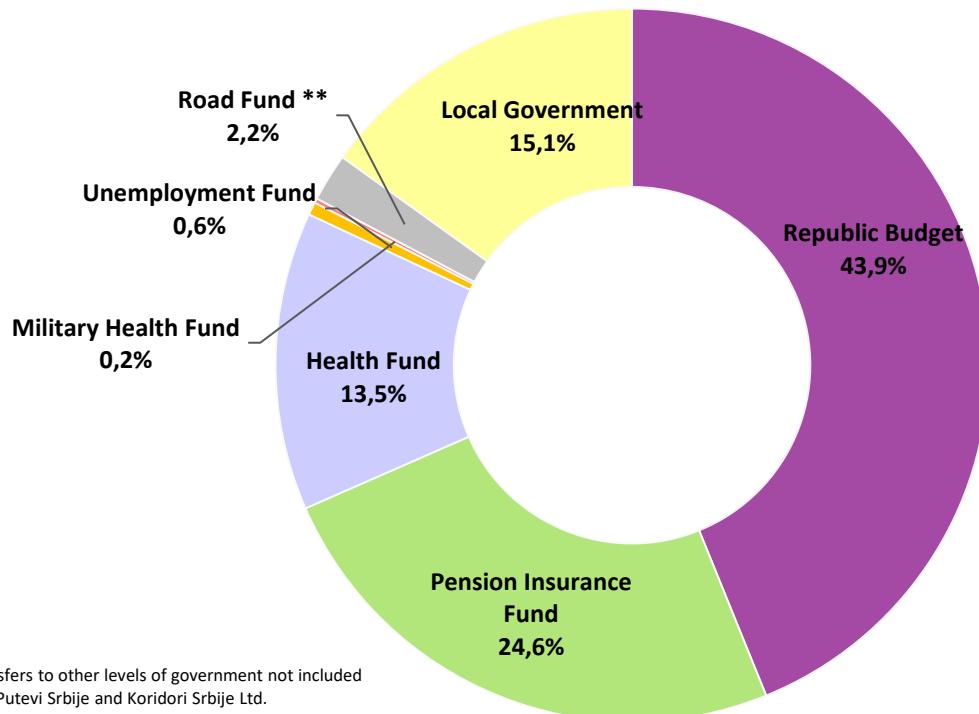

### Structure of consolidated revenues by levels of government, in Jan-Nov 2023\*

\* Transfers from other levels of government not included

\*\* PE Putevi Srbije and Koridori Srbije Ltd.

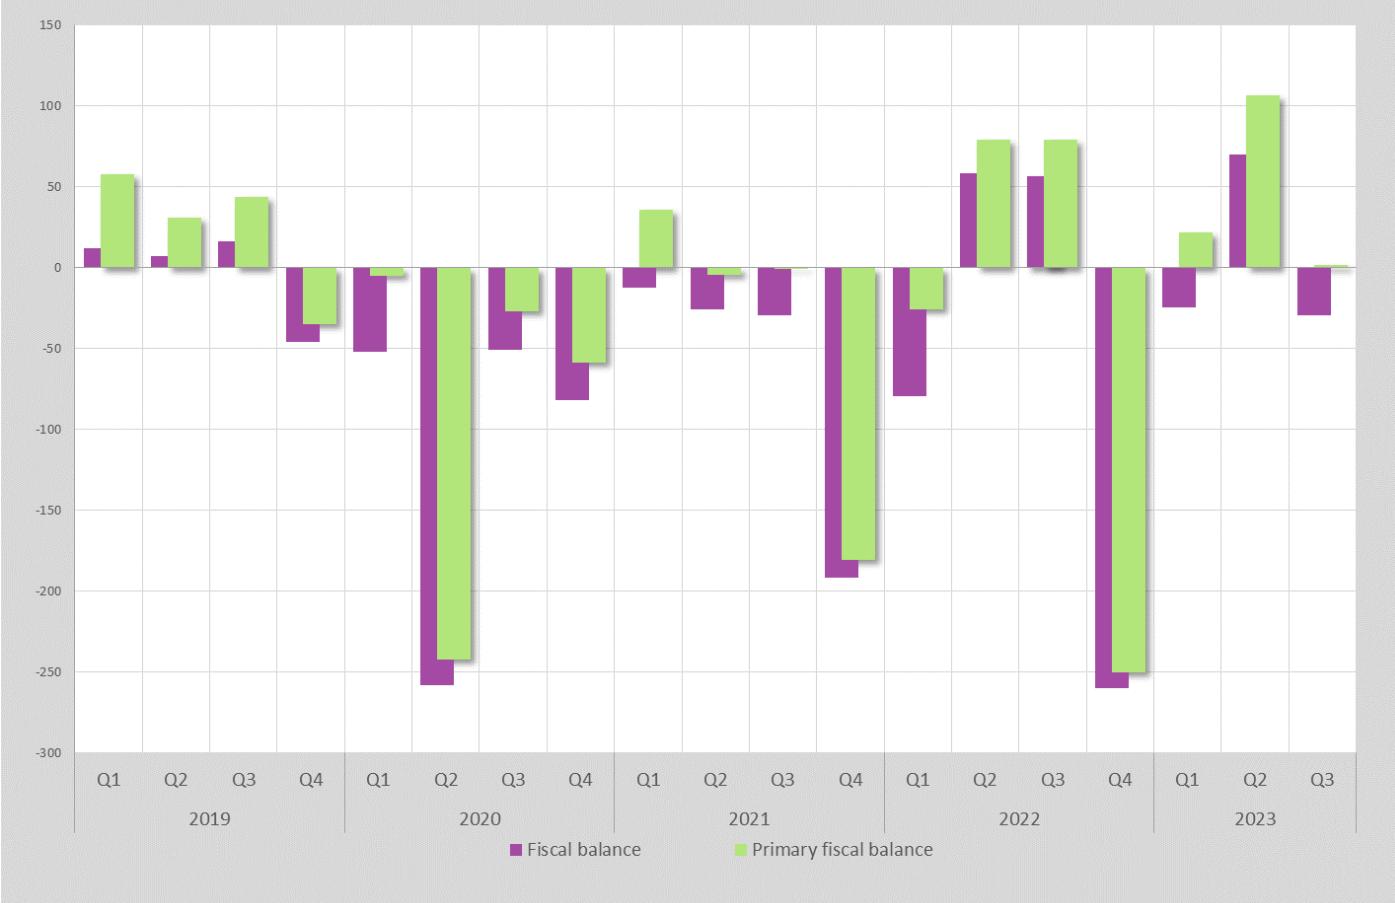

### Structure of consolidated expenditures by levels of government, in Jan-Nov 2023\*

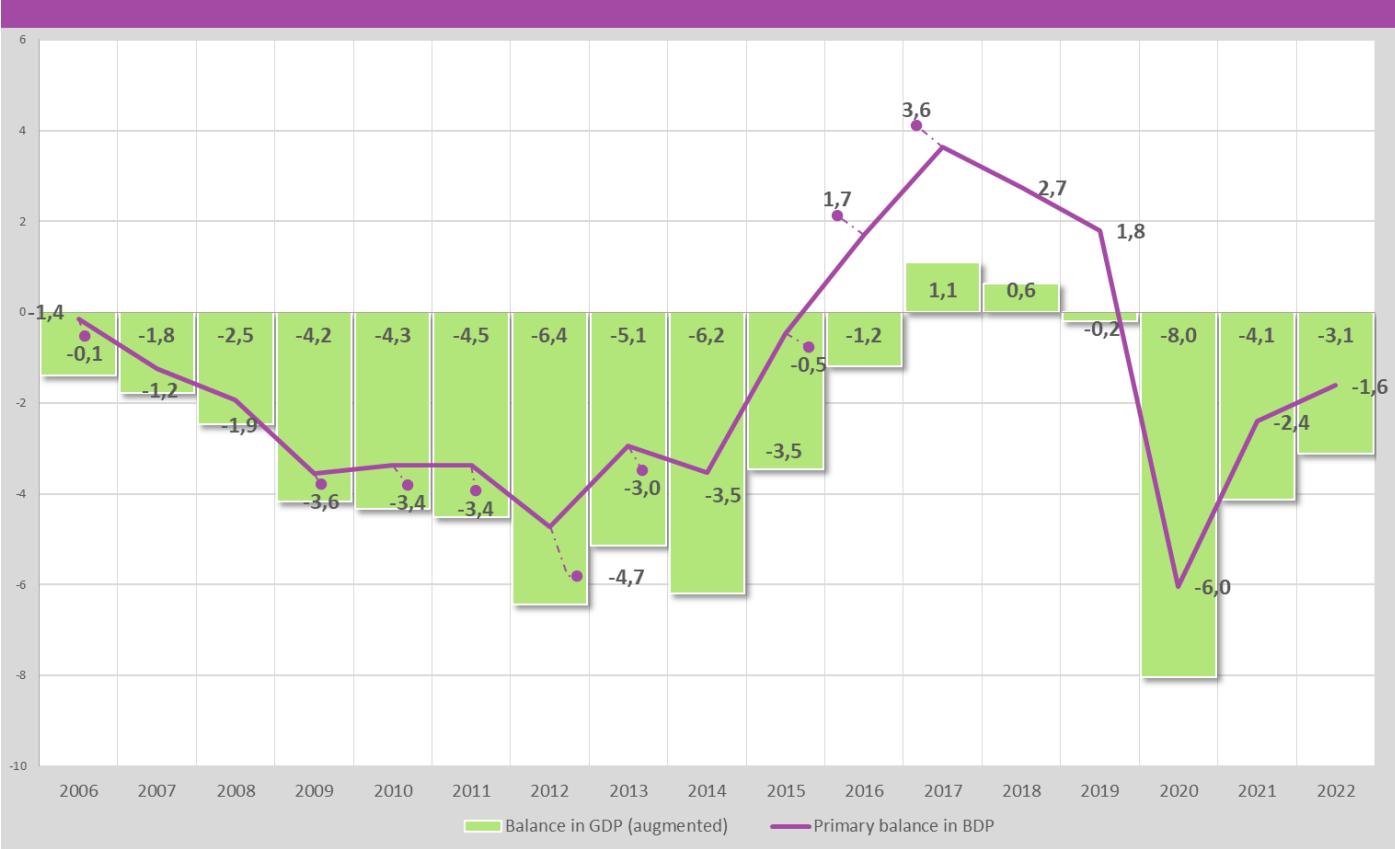

\* Transfers to other levels of government not included

\*\* PE Putevi Srbije and Koridori Srbije Ltd.

## METHODOLOGICAL EXPLANATIONS

---

IV

# ECONOMIC, FISCAL AND PUBLIC DEBT STATISTICS

**1. Economic statistics** (tables in Chapter I, Macroeconomic Developments) are based primarily on the statistical methodology and data provided by the Statistics Office of the Republic of Serbia, National Bank of Serbia, National Employment Agency, Privatization Agency, Belgrade Stock Exchange, Pension and Disability Insurance Fund of the Republic of Serbia etc.

Economic Statistics contained in the Chapter I includes: main indicators of macroeconomic developments in the annual and monthly dynamics for the current year; gross domestic product (GDP) in constant prices and its growth rates by quarters and usage of GDP; trends in physical volume of industrial production in monthly dynamics (total, by sections and economic purpose); consumer prices trends in annual and monthly dynamics; developments of overall consumer prices (in total and by components) in monthly dynamics for current year; producer prices of industrial products for domestic market and for export in annual and monthly dynamics; developments of exports in monthly dynamics; prices of external trade in annual, quarterly and monthly dynamics; developments in Foreign direct investments in quarterly dynamics; external debt in annual dynamics and in last month of current year; balance of payments in annual and monthly dynamics; monetary survey by years; main monetary indicators, household savings and foreign exchange reserves, total number of employed and unemployed and average net salaries and pension benefits (in dinars and annual real growth rates) in annual and monthly dynamics; an overview of privatization results in annual dynamics and for a specific period of the current year for which there are available data; an overview of trends of indices; market capitalization and foreign investors participation in total turnover on Belgrade Stock Exchange; an overview of turnover of securities on the Belgrade Stock Exchange; an overview of auctions of Republic of Serbia treasury bills in annual dynamics and on daily basis.

**2. Fiscal statistics** (tables in Chapter II Fiscal Developments) is based on the GFS methodology and data of the Ministry of Finance, Treasury Administration and Public Debt Administration.

Starting from Memorandum on the Budget and Economic and Fiscal Policy for 2009 with projections for 2010 and 2011, IMF methodology – Government

Finance Statistics is used to present and create projections for fiscal aggregates. All data in this bulletin have been computed by using the same methodology basis.

The main objectives of alignment with methodology of Government Finance Statistics is the possibility to perceive macroeconomic implications of fiscal policy. It is particularly important to perceive the influence of fiscal policy on domestic demand, hence every item of revenues and expenditures is considered from its aspect, regardless of its classification in accounting.

Here is a comparative overview of the previous and the new methodology of government finance statistics.

**1. The level of observation** is consolidated government sector that comprises the following levels of government: the central government – budget of the Republic of Serbia and Social Security Organizations; local government – budget of the Autonomous Province of Vojvodina and budgets of municipalities and towns; public road company Putevi Srbije and Koridori Srbije Ltd.

**2. Coverage of data:** beside budget resources, application of this methodology in computation of fiscal aggregates includes other sources of financing – a part of own resources of government bodies, donations, loans and privatization receipts. The previous coverage included only budget resources and expenditure financed from budget resources.

**3. The method of computation of results:** The deficit or surplus of consolidated government sector is the difference between revenues and overall expense plus net budget borrowing. The category of net landing is treated as an expense in cases when the purpose of the spending is implementation of a government policy, while if expense is made in order to manage liquidity, it becomes a financing item, without any influence on the government's result.

**4. The difference in accounting and statistical coverage of particular items of expenditure:** in view of the primary objective – gaining insight into macroeconomic implications of the fiscal policy, particular items of the expenditure, e.g. repayment of debt to pensioners, which is treated in accounting as a part of repayment of debt – without influence on the result, statistically is treated as transfer to citizens and

on ground influences increase in domestic demand. Mobile telephony license, treated in accounting as current non-tax revenue, in view of its one-time character is now treated as part of financing.

With advancement of accounting base – i.e. with transition to accrual basis in recording government transactions – conditions will be created for further enhancement of government finance statistics methodology and for alignment with the EU (ESA 95).

The Ministry of Finance is responsible for collection and processing of fiscal data. Fiscal statistics includes: consolidated balance of the general government sector and particular balances, i.e. budget of the Republic of Serbia (central government), budget of AP Vojvodina, budget of local authorities, financial plans of social security organizations, public road company Putevi Srbije and Koridori Srbije Ltd.

**General government.** General government sector comprises all the levels of government in the country. Subsectors that form general government include: central government – budget of the Republic of Serbia, provincial government – AP Vojvodina, local government – municipalities, towns, social security funds, public road company Putevi Srbije and Koridori Srbije Ltd. Fiscal statistics, with regard to the individual state subsectors, is especially significant for the understanding of interrelation between different governmental levels, separation of functions as well as division of revenues. It is important to determine the amounts and the flow of transfers between governmental levels, which is achievable only owing to the individual and separate balances of all governmental levels. However, only the data presenting the entire general government may provide the information concerning the amount of fiscal operations of the state, consumption of the state and its influence on aggregate demand and total macroeconomic stability, reallocation of collected funds originating from other economic sectors, burden of taxation of the economy, tax structure etc.

**Central government – budget of the RoS.** Central government comprises all the ministries, agencies, and other special organizations defined as direct or indirect republic budget beneficiaries.<sup>2</sup> The Government may define and achieve set goals concerning economic policy at the level of the entire country, primarily through the implementation of certain measures and programmes by the means of the budget of central government. Other governmental levels do not economic policies

concerning the national level. The more centralized is the country, the more significant are the data related to this level of government<sup>3</sup>.

**AP – Vojvodina.** Budget of AP Vojvodina comprises all governmental authorities and other special organizations defined as AP Vojvodina budget beneficiaries.

**Local self-government.** Data concerning local self-government relate to the data collected in all cities and municipalities constituting the local self-government system. The coverage of data at the level of cities or municipalities relate to all direct or indirect budget beneficiaries of a city or a municipality. The budget beneficiary of a city or a municipality is an institution primarily financed from the funds originating from the local government. Local government controls its business activities and it performs certain functions through the institution<sup>4</sup>.

**Social security organizations.** Social security organizations include the Pension and Disability Insurance Fund, Republic Health Insurance Fund, Military Health Fund and National Employment Service.

**Public road company Putevi Srbije.** Revenues of Putevi Srbije have the character of public revenues (toll and transfers from republican budget), and repayment of a large part of the company's debt takes place from the Republic of Serbia budget, therefore the company is treated as a part of the general government sector.

**Koridori Srbije LTD.** are a Government owned company, responsible for investment in road infrastructure.

## BASIC FISCAL AGGREGATES

Basic fiscal aggregates are total public revenues, total public expenditures, and the result of the difference between these two categories, which is defined as surplus or deficit in the consolidated balance of general government or balances of individual governmental levels.

<sup>3</sup> The largest amount of tax revenues, apart from property taxes, pertains to the budget of the RS. Income tax is renounced in the legally defined percentage to the local self-government, whereas a part of the revenues collected from income taxes realised in the territory of Vojvodina pertains to the AP Vojvodina. This shows the importance of the central governmental level in the country.

<sup>4</sup> Primary and secondary schools pertain to the central government as their financing is mostly provided from that level. A part of material expenses of schools is financed from local self-government funds but not in the extent sufficient for pertaining of these institutions to the local government. Preschool institutions are local budget beneficiaries. When reviewing data regarding their revenues and expenditures, they are included in the local government level.

<sup>2</sup> Indirect republic budget beneficiaries are primary and secondary schools, faculties, scientific institutes, social welfare institutions, cultural institutions and other institutions partly financed from the Republic budget.

**Total public revenues** are divided into two basic categories: current revenues and yield on capital.

**Current revenues** are divided into tax and non-tax revenues.

The basic characteristics of **tax revenues** is their mandatory nature and non-existence of any direct reciprocal service for the payment of taxes. The state collects taxes finances certain state functions from collected funds. The benefits related to certain functions cannot be directly connected to an individual who paid the tax.

**Income tax** comprises wage tax, as well as taxes on other forms of earnings of individuals, beside the wages.

**Corporate income tax** comprises, in addition to corporate profit tax narrow meaning of the term, also tax on dividends paid to the residents and non-residents, as well as the tax on interests, royalties and capital incomes realized by non-residents.

**VAT** comprises national VAT, import VAT, and the arrears of turnover taxes from the previous years.

**Excise duties** present consumption taxes concerning specific products such as oil, tobacco, coffee, alcoholic beverages etc.

**Customs duties** and other import duties comprise revenues from duties paid for import of goods and services, with the exception of the VAT on imported goods that is included in VAT revenues.

**Other tax revenues** comprise taxes on use, ownership and carrying of goods, and other taxes. The property tax of local government is included in the category of other tax revenues in the general government consolidated balance.

**Non-tax revenues** are heterogenic category of revenues including property revenues (collected interest, rental fees) compensations, taxes, fines and other revenues that cannot be classified. As opposed to tax revenues, non-tax revenues imply the existence of reciprocal favour for the sum collected - e.g. the compensation for the usage of natural resources. However, there are revenues that may by their characteristics be classified as non-tax revenues, but without implying the reciprocal favour for the collection. Fines are a typical example of this sort of revenue.

**Capital revenues** comprise only revenues originating from the sale of capital goods, as well as the capital transfers from non-governmental institutions. The sale of capital goods imply the sale of non-financial assets, buildings, inventories and state-owned land.

**Total expenditures** in the Bulletin of Public Finance are presented according to the economic classification emphasizing the type of expenses, i.e. its economic characteristics and influence of state consumption on the market of goods and services, financial market and reallocation of income. In addition to the economic classification of expenditure, there is also a functional classification emphasizing the function the state performs by using of funds for specific purposes<sup>5</sup>. The Bulletin of Public Finance does not contain expenditures classified in accordance with the functional classification.

Overall expenditure is divided into current expenses, capital expenses and net budget borrowing.

**Current expenses** present final budget outflows, and are not intended for the procurement of non-financial assets.

**Compensation of employees** comprise (net) salaries of employees including income tax and contributions paid by employees, contributions paid by employers, as well as other fringe benefits (transport allowance, sick leave allowance for the period up to 30 days etc.).

**Procurement of goods and services** comprise payments related with coverage of business expenses (electricity, phone bills etc.), business trips, services contracts, current maintenance and procurement of material.

**Repayment of interests** is divided into repayment of interests on domestic debt, interests on external debt, interests based on activated guarantees and accompanying borrowing expenses.

**Subsidies** comprise all the funds transferred to the economic sector (public enterprises, registered agricultural holdings etc.) for the coverage of running expenses or/and the grant intended for current business activities.

**Social insurance and social welfare expenses** include payments to person insured with social security organizations (pensions of beneficiaries of Pension and Disability Insurance Fund, sick leave benefits paid by the Republic Health Insurance Fund, unemployment benefits paid by the National Employment Service, Repayment of debt to pensioners, children and family benefits, benefits for war-disabled persons, pregnancy leave benefits,

<sup>5</sup> Division of expenditures according to the functional classification is the following: general public services, defence, internal security, economic affairs, environmental protection, housing construction and municipal services, healthcare, recreation, culture and religion, education and social welfare.

housing benefits, Military Health Fund expenditures etc.

**Other current expenses include** grants to non-governmental organizations, mandatory levies and penalties imposed by one governmental level to another, fines and penalties imposed by courts and judicial bodies, injury compensations or compensations for damages incurred by natural disasters, and damages incurred by the public bodies. **Capital expenses** comprise all the payments intended for the procurement of non-financial assets, construction of buildings and infrastructure, procurement of equipment and inventories and the purchase of land.

**Net lending** are expenses for purchase of financial assets whose objective is implementation of a particular government policy.

**General government consolidated balance** contains consolidated revenues and consolidated expenditure.

**Consolidated revenues** are aggregate revenues of individual governmental levels, but in the consolidation procedure, transfers received from other governmental levels are excluded. In the consolidation procedure, benefits paid by general government in the function of employer are excluded from the revenues of mandatory social insurance organizations.

**Consolidated expenses** present aggregate expenditures of individual governmental levels, while in the consolidation procedure, transfers provided from one governmental level to another are excluded. In the consolidation procedure, expenditures paid by general government in the function of employer are excluded from the expenditures.

**Consolidated surplus / deficit** is a difference between consolidated revenues and consolidated expenditure.

**Balance surplus/ deficit of individual governmental levels** is a difference between total revenues and total expenditures, at a particular governmental level.

**Earnings** not included in the revenues of general government present earnings based on domestic and external borrowing and earnings based on the privatization of state-owned enterprises.

**Expenses** that are not included in general government expenses are those for repayment of principal of national and foreign debt and expenses for purchase of financial assets that cannot be classified as net lending.

**3. Public Debt Statistics** (Tables in Chapter III – Public Debt) is based on the data of the Republic of Serbia Treasury Administration. The public debt of the Republic of Serbia consists of direct liabilities (received loans) and indirect liabilities (issued guarantees).

### **Direct Liabilities**

Direct Liabilities of the RoS are those incurred on the basis of the loans taken. Direct liabilities, depending on the creditor, constitute the following: (1) domestic debt and (2) foreign debt.

**Domestic Debt** consists of liabilities carried over from the past, and liabilities stemming from short-term treasury notes. The largest share in the domestic debt is the one of the frozen foreign currency savings, which also constitutes the largest individual debt in the public debt of the RoS.

**Foreign Debt** consists of (1) rescheduled old debt and (2) new borrowing.

**The rescheduled debt** consists of: (1) the debt towards International Bank for Reconstruction and Development (IBRD, A, B, C), (2) debt towards the Paris Club of Creditors, (3) debt towards the London Club of Creditors, (4) debt towards Council of Europe Development Bank (CEB).

### **1. Indirect Liabilities**

Indirect liabilities of the RoS are those incurred on the basis of the issued guarantees. Due to the fact that the guarantees that have been issued up to date were related with loans taken from foreign creditors, total indirect liabilities fall under the category of foreign debt.

### **Public Debt to Gross Domestic Product Ratio**

Debt to GDP ratio is one of the most important indicators of the public debt sustainability and one of the convergence criteria for joining the EMU.

### **Structure of Interest Rates**

The ratio between the fixed and variable interest rates in the public debt of Serbia is distinctly favourable. High share of the fixed interest rates provides high level of predictability of future liabilities arising from the interest and thus the Republic of Serbia is not exposed to the interest rate risk.

### **The Public Debt Currency Structure**

The public debt consists of different currencies. The largest share, however, is the debt denominated in Euros and US Dollars.
