CURRENT MACROECONOMIC AND FISCAL DEVELOPMENTS

1. Current macroeconomic developments

1.1. Economic activity

Gross domestic products. In the second quarter of 2021, gross domestic product (GDP) recorded a real year-on-year increase of 13.7%, which is an increase of 0.3 pp compared to the flash estimate. Also, economic growth in the first quarter was corrected by 0.1 pp upwards to 1.8% y-o-y. Observed from the production side, in the second quarter, almost all production sectors recorded year-on-year growth in production. The most significant positive impact provide sections of wholesale and retail trade and repair of motor vehicles, transportation and storage and accommodation and food services with a positive contribution of 4.9 pp, industry with a contribution of 2.6 pp and professional, scientific and technical activities and administrative and support service activities of 1.6 pp. Agricultural production and the section of public administration and defence; compulsory social security; education and human health and social work activities are the only two sections that had a negative contribution of 0.1 pp and 0.2 pp, respectively.

Observed by expenditure aggregates, private consumption is the dominant driver of growth in the second quarter with a contribution of 11.9 pp, followed by investment with a positive contribution of 4.4 pp and changes in inventories of 3.9 pp. On the other hand, net exports and government consumption had negative impact on economic activity of 5.9 pp and 0.7 pp, respectively.

Excluding the influence of the season, the value of GDP in the second quarter of 2021 is higher by 1.3% compared to the previous quarter. In the first half of 2021, real GDP growth was 7.6% y-o-y.

Industrial production. According to the Statistical Office of the Republic of Serbia (SORS) data, industrial production in July 2021 has increased annually by 1.7%, while compared to the average industrial production in 2020 increased by 3.6%. The largest influence on industrial production growth in July 2021 compared to July 2020 had the divisions of: manufacture of coke and refined petroleum products, manufacture of other transport equipment, mining of metal ores, manufacture of tobacco products, as well as manufacture of beverages.

Observed by NACE Rev. 2, in July 2021, annual increase was recorded in all three sections: mining and quarrying (7.1%), manufacturing (1.2%) and electricity, gas, steam and air conditioning supply (1.6%). The largest increase in production was recorded in manufacture of other transport equipment (141.5%), while manufacture of furniture has decreased the most (-21.3%).

The industrial production volume in July 2021, in comparison to the same month in 2020, recorded an increase within 16 divisions, which accounts for 64% of the total industrial production, while a decrease in 13 divisions, which accounts for 36% of the total industrial production.

Observed by the **Main industrial groupings (MIGs)**, in July 2021, compared to July 2020, an increase in the production was recorded in the production of energy (4.3%), capital goods (4.3%), intermediate goods, except energy (3.1%), while a decrease was recorded in the

production of durable consumer goods (-18.3%) and non-durable consumer goods (-0.4%).

In first seven months it was recorded an increase of industrial production of 7.8% y-o-y. Observed by MIGs, the main contribution to the increase of industrial production came from the production of intermediate goods except energy (growth of 10.6%), primarily due to the growth of production of rubber and plastic products and other non-metallic mineral products. Production of capital goods increased by 20.0%, with a significant positive impact of the production of motor vehicles, trailers and semi-trailers and other transport equipment. The most significant positive impact on the growth of energy of 5.5% came from the production of electricity, gas, steam and air conditioning supply. The production of non-durable consumer goods increased by 2.8%, primarily as the result of the growth of production of beverages, while the most significant positive impact on the growth of durable consumer goods of 15.8% came from the production of electrical equipment.

The seasonal adjustment of the industrial production index for July 2021, compared to June 2021, indicates an increase of 1.0% of the overall industrial production and a decrease of 0.2% of manufacturing.

According to the SORS data, in July 2021 stocks increased by 2.0% compared to July 2020. The largest annual decrease in stocks in July was recorded in the

stocks of manufacture of machinery and equipment n.e.c. (-31.1%), while the largest growth was in the stocks of manufacture of computer, electronic and optical products (76.8%).

Retail trade turnover. Annual growth of the retail trade turnover in July 2021 increased by 16.6% in nominal and increased by 11.1% in real terms, compared to July 2020. Also, in July, turnover in real terms, increased by 16.3% compared to the average monthly retail trade turnover in 2020, while compared to the previous month, increased by 1.8%.

Annual growth of the category food, beverages and tobacco was 12.4% in nominal terms, while in real terms increased by 9.8%. Category non-food products, except automotive fuel increased in nominal and real terms by 11.2% and 9.2%, respectively. Motor fuel's turnover increased by 38.3% in nominal terms and increased by 16.6% in real terms.

Increase in the retail trade turnover in nominal terms was observed in all the regions: Srbija – Jug by 22.2%, Region Vojvodine by 16.5% and Srbija – Sever by 12.9%, y-o-y. Observed in real terms, growth in the turnover was registered in all the regions, and the biggest increase of 15.4% y-o-y was recorded in the Srbija – Jug.

In the period January–July 2021, compared with the same period of 2020, the retail trade turnover increased by 14.9% in nominal and by 11.9% in real terms.

Tourism. Annual growth in the number of tourists' visits was registered in July 2021 (77.9%). At the same time, the number of overnight stays increased by 60.0% compared to the same month of the previous year. The number of domestic tourists' visits increased by 26.7%, while the number of their overnight stays increased by 22.5%, compared to the same month in 2020. Also, the number of foreign tourists' visits increased by 434.4% and the number of their overnight stays increased in the same amount. Share of the foreign tourists' visits and their overnight stays was 37.7% and 30.4% respectively.

Most of the tourists in July 2021 originated from Bosnia and Herzegovina, Germany, Turkey, India and Montenegro (34.8% of the total number of foreign tourists' visits and 39.3% of their total overnight stays). In July, spas had the largest number of tourist arrivals and overnight stays (27.8% of the total number of arrivals and 33.8% of the total number of overnight stays). A higher number of domestic tourists compared to foreign tourists was recorded in all places, except in the cities of Belgrade and Novi Sad, where most of the tourists were foreigners (81.1% and 69.1% of the total number of visits, respectively).

In the period January–July 2021, the number of tourists and their overnight stays totalled 1,333,900 and 4,287,116, respectively. The number of tourists' visits increased by 36.9%, while the number of their overnight stays increased by 31.0%, compared to the same period of 2020. Also, the number of domestic tourists' visits

increased by 37.3%, while their overnight stays increased by 26.8%. At the same time, the number of foreign tourists' visits increased by 35.8% tourists' visits, while their overnight stays increased by 43.8%.

External Trade and Balance of Payments

External trade. In July 2021, it was exported EUR 1,854.1 million of goods, which is higher by 24.8% compared to the July 2020. The biggest contribution to the growth of exports came from the exports of metal ores and basic metals with the same contribution (5.1 pp) and export of chemical products (2.8 pp). Import of goods amounted to EUR 2,470.1 mill, which is higher by 24.2% compared to the same month in previous year.

Foreign trade deficit amounted to EUR 616 million, which is higher by 22.6% compared to the same month in previous year, while 75.1% of the imports was covered by the exports.

Seasonally adjusted series shows that in July 2021 in comparison to the previous month, export increased by 4.6%, while import increased by 1.3%.

In the period January-July of 2021, exports amounted to EUR 11,927.3 million, which is higher by 28%, while imports amounted to EUR 15,551.9 million, which is higher by 22.3%, compared to the same period of previous year. During the observed period, trade deficit amounted to EUR 3,624,6 million, which is higher by 6.7%, compared to the same period of previous year.

According to the SITC sections, in the first seven months of 2021, the largest share in the exports came from the export of electrical machinery and apparatus (12.8%). Significant share in the exports also came from cereals and cereal preparations, power-generating machinery, vegetables and fruit and non-ferrous metals, which including electrical machinery amounted for 31.2% of total exports. In observed period, 26.5% of

total imports came from import of electrical machinery and apparatus, petroleum and petroleum products, road vehicles, general industrial machinery and equipment, and medicinal and pharmaceutical products.

In observed period, positive trade balance (EUR 1,267 million) was achieved by the following sectors: food and livestock, miscellaneous manufactured products, beverages and tobacco, animal and vegetable oil and also crude materials.

In the first seven months in 2021, largest external trade partners were EU countries on which related 65.9% of total exports and 58.8% of the total imports. In observed period, 39.8% of the total exports were related to the trade with: Germany, Italy, Bosnia and Herzegovina, Romania and Hungary. Imports from Germany, China, Italy, Russia and Turkey accounted for 43.7% of the total imports. Surplus of EUR 1,680.6 million was achieved in external trade with Bosnia and Herzegovina, Montenegro, North Macedonia, Romania, Czech Republic, United Kingdom, Bulgaria, Croatia, Sweden, Slovakia and Slovenia. The largest deficit was achieved in external trade with China (due to imports of telephones for network stations and laptops), Turkey and Germany.

Balance of payments¹. In June 2021, the current account recorded a deficit of EUR 257.9 million, which is higher by EUR 85.3 million, compared to the same month of previous year. Higher current account deficit was due to higher deficit on goods and services account. The goods deficit is higher by EUR 184,5 million, while the services account recorded a surplus, which amounted to EUR 77.5 million.

In June 2021, net inflow of foreign direct investments amounted to almost EUR 300 million. The total inflow based on FDI amounted to EUR 308.4 million.

¹ Since April 2014, Balance of Payments of the Republic of Serbia is being presented according to the Balance of Payments Manual and Public Finance Bulletin, July 2021

international investment position, VI edition of the International Monetary Fund (BPM6).

In the period January-June of 2021, the balance of payments position of the country was improved. The current account deficit in this period amounted to EUR 431.9 million, which is lower by EUR 855.5 million, compared to the same period of previous year. Lower current account deficit was due to lower deficit on goods and services account, but also due to higher secondary income surplus. The trade deficit decreased by 3.2%, while surplus in the services account increased by 69.3% and amounted to EUR 817.4 million. The primary income deficit increased by EUR 11.7 million, mainly due to higher outflows of investment income. The secondary income surplus is higher by EUR 450 million, compared to the same period of previous year and amounted to EUR 1,974.9 million.

In the observed period, net inflow of foreign direct investments amounted to EUR 1,578.7 million, which is higher by 11.4%, compared to the same period of previous year. Also, at the same time, net inflow of portfolio investment amounted to EUR 783.7 million.

1.3. Inflation

At the middle of 2021, inflation was at a slightly higher level compared to the previous period, which was a consequence of the influence of temporary factors. Thus, in July, the growth of consumer prices on a year-on-year basis was 3.3%. The biggest impact on inflation was due to the increase in world oil prices, vegetables, as well as its low base value.

On the monthly basis, consumer prices increased in July by 0.2%, mainly due to the increased prices of oil derivatives, travel arrangements and tobacco.

Core inflation, measured by the increase of the consumer prices from which is excluded the increase of energy, food, alcohol and tobacco in July 2021 increased by 0.4%, while increased by 1.9%, y-o-y.

1.4. Labour market

According to current data on labour market trends, no significant impact of coronavirus on the number of employees is noticeable, which is primarily the result of government and NBS measures. Looking into the data from the CROSO registry average number of formally employed in July 2021 increased by 3.5%, y-o-y, which is almost entirely the result of growth in employment in the private sector of 4.7%, while in the public sector the number of employees increased by 0.6%. At the same

time, most significant growth in employment was recorded in manufacturing industry, trade, ICT and professional, scientific and technical activities.

According to the Labour Force Survey for the second quarter of 2021, compared to the second quarter of 2020, the employment rate increased by 2.0 percentage points, the unemployment rate by 3.2 percentage points, while the non-working population rate reduced by 4.1 p.p.

According to the National employment agency data (NEA) at the end of July, number of unemployed persons actively seeking employment totalled 519 thousands, which is almost unchanged compared to the same month of the previous year.

Salaries. In June 2021, the average net salary increased by 5.4%, y-o-y, in real terms, with increase of salaries at the same time in private and in public sector. Observed by activities, the most significant increase in salaries was recorded in the manufacturing industry and trade.

Pensions. Average paid pension in July 2021 increased in real terms compared to the same month of previous year by 2.4%.

1.5. Monetary developments

In July 2021, NBS kept its key interest rate to the level of 1.00%.

Through July, banks as largest single investors in state treasury bills increased their invested funds on that basis by RSD 5.1 billion. Compared to the same month in the previous year, banks increased their invested funds by RSD 110.0 billion.

At the end of July 2021, compared to same month of the previous year, bank loans to economy registered increased by 6.6%, while loans to households increased by 10.7%. At the same time, bank deposits registered growth of 12.1%. In structure of loans to economy by destination biggest share had loans for current assets and investment loans (42.8% and 40.4%, respectively), with yearly increase of loans for current assets by 12.8% and increase of investment loans by 0.6%. At the same time at loans landed to households, biggest share had cash loans (44.2%) with yearly growth of 10.5% and housing loans (37.5%), with yearly growth of 15.9%.

In structure of bank sources of funds dominant share had borrowed sources. At the end of July 2021, in total fund sources borrowed sources share was 86.6%, which is an increase of 1.2 pp y-o-y, while in comparison to the previous month decreased by 0.1 pp. In currency structure of funds, foreign currency sources share was 50.0%, and compared to previous month decreased by 0.1 pp, while compared to the same month of previous year decreased by 0.7 pp.

NBS foreign exchange reserves increased by EUR 488.5 million compared to previous month, while compared to the same month of previous year increased by EUR 1,059.3 million and totalled EUR 14.6 billion at the end of July 2021. Inflows to FX reserves in July were recorded primarily due to the net inflow arising from NBS activity in the local FX market. Level of NBS foreign exchange reserves was sufficient for coverage of 136% of M1 monetary aggregate and for coverage of more than six months of imports of goods and services.

Household foreign currency savings at the end of July 2021 compared to previous month increased by EUR 103.0 million and totalled EUR 12.2 billion. Compared to same month of previous year foreign currency savings increased by EUR 1.2 billion.

Developments on the foreign exchange market in July 2021 compared to previous month were characterized by unchanged conditions both in nominal and real terms. In comparison to the same month of the previous year, foreign exchange rate recorded real appreciation of

1.1%, while in nominal terms remained unchanged. In order to mitigate extensive daily oscillations of exchange rate, NBS throughout July intervened on the foreign exchange market by net buying EUR 380 million.

1.6. Financial markets

In July 2021 Belgrade stock exchange registered total turnover of securities in amount of RSD 1,701.1 million, from which turnover of shares and Republic of Serbia bonds (RS bonds) totalled RSD 146.8 million and RSD 1,554.3 million, respectively. In comparison to the same month of previous year, total turnover decreased by 39.1%. Total number of transactions decreased from 1,238 in July 2020 to 1,148 in the same month of 2021.

Total market capitalization at the end of July 2021 amounted to RSD 510.3 billion and decreased by 2.9% compared to previous month, while compared to same month of previous year increased by 6.4%.

In July 2021 foreign investors share in total turnover accounted for 2.13% and decreased by 9.20 pp in comparison to same month of the previous year. Share of foreign investors in turnover of shares decreased by 14.36 pp and amounted to 23.41%, while the share of foreign investors in turnover of RS bonds amounted to 0.12%, which represents a decrease of 9.88 pp compared to same month in the previous year.

During July 2021 on Belgrade stock exchange index BELEXline registered decrease in value of 0.2% and totalled 1,650.42 index points, while the value of BELEX15 index decreased by 0.5% and totalled 775.66 index points. Compared to same month of the previous year, index BELEXline increased by 11.5% and index BELEX15 also increased by 16.1%.

1.7. International environment

According to the Eurostat's estimation, GDP growth in Q2 2021 in the euro area and the EU increased by 14.3% and 13.8%, respectively, compared to Q2 2020, while comparing to the previous quarter increased by 2.2% and 2.1%, respectively. According to the ECB outlook, the projected growth will amount to 4.6% in 2021, and it will recover in 2022 and 2023 to 4.7% and 2.1%, respectively, while the average yearly inflation will mildly slow from 1.9% in 2021 to 1.4% in 2023. Growth forecast takes into consideration uncertainties caused by pandemic in the future period, as well as following downside risks and global uncertainties.

Average prices of agriculture products have decreased by 2.1% in July 2021 compared to the previous month, while food prices increased by 0.2%. Base metal prices increased on average by 0.2% compared to the previous month, while the price of iron ore recorded a decrease of 0.7%, and cooper prices decreased by 1.9%. According to the World Steel Association, world production of steel in July 2021 increased annually by 3.3%, while in China decreased by 8.4% y-o-y (which is somewhat more than a half of World production). In the group of

precious metals, the price of gold decreased by 1.5%, while the price of silver decreased by 4.6%.

Value of the Composite PMI index in July amounted to 60.2 ip (up by 0.7 ip compared to previous month), due to the increase of manufacturing and services sector output. Economic Sentiment Indicator (ESI) increased by 0.9 ip in the EU27 (118.0 ip), while in the euro area increased by 1.1 ip (119.0 ip), compared to previous month.

At the end of July 2021, the unemployment rate in the euro area and EU27 amounted to 7.6% and 6.9%, respectively. At the same time, unemployment rate in Germany and Italy was 3.6% and 9.3%, respectively. At the same time, according to the data of the Russian Statistical Office, in the Russian Federation the unemployment rate was 4.5%.

Trend of inflation during July mildly accelerated, when inflation of 2.2% was registered in the euro area, while inflation of 2.5% was recorded in the EU27. At the same time in Germany and Italy was observed an inflation of

3.1% and 1.0%, respectively. Observed by categories the largest increase was in the prices of: services, energy and food, alcohol and tobacco. In Russia, the annual inflation reached 6.5%.

In July, ECB decided to keep the interest rate at record low level of 0%, and continue a temporary long-term refinancing operations with favourable conditions. In

July, FED kept key interest rate to an interval of 0.00% to 0.25%.

According to the OPEC data, the price of oil type Urals has amounted to 73.09 \$/barrel in July (up by 2.1% compared to the previous month). Since the beginning of 2021, the price increased by 61.9% compared to the same period 2020, to 65.27 \$/barrel.

¹ From 01/01/2010 Telekom Srbija, Joint Stock Company ceased to observe impulses in fixed network domestic traffic and started to present the subject services in minutes. ² Including turnover generated by legal entities and entrepreneurs. ³ Index shall be accounted according to the data compiled for producer's price index for industrial products in domestic market and producer's export price index for industrial products. ⁴ Since January 1st 2010 general trade system has been introduced. Data for 2007, 2008 and 2009 changed according to new methodology. ⁵ Since April of 2014 Balance of Payments of the Republic of Serbia is shown by the Manual of balance of payments and international investment position, the sixth edition of the International Monetary Fund, the 2009th (BPM6). Accordingly, data for year 2012 and 2013 are corrected. ⁶ Since September 2010 methodology for the external debt statistics has been changed. NBS has revised the data to the external debt since 2009. ⁷ GFS-1986 methodology. ⁸ Data on foreign currency savings since December 2012 according to new methodology of NBS. ⁹ SORS changed data for employment. Without registered individual agricultural workers. ¹⁰ Population aged 15 and above. ¹¹ New methodology for salaries, SORS applied from January 2009, from January 2018 the average salary is calculated on the basis of data from the Tax Administration records. ¹² Since 2012 with professional army servicemen.

* On October 1, 2020, the Statistical Office of the Republic of Serbia released the preliminary results of the annual GDP calculations for 2019, as well as the final data for 2018, and the data series from 2015 to 2017 were made compliant with the results of the Supply and Use Tables. ** SORS estimation as a sum of four quarters. *** MoF Estimation. ¹ The data refers to the period January-June 2021 (the same period of the previous year=100). ² From 01/01/2010 Telekom Srbija, Joint Stock Company ceased to observe impulses in fixed network domestic traffic and started to present the subject services in minutes. ³ Including turnover generated by legal entities and entrepreneurs. ⁴ Index shall be accounted according to the data compiled for producer's price index for industrial products in domestic market and producer's export price index for industrial products. ⁵ Since January 1st 2010 general trade system has been introduced. Data for 2007, 2008 and 2009 changed according to new methodology. ⁶ Since April of 2014 Balance of Payments of the Republic of Serbia is shown by the Manual of balance of payments and international investment position, the sixth edition of the International Monetary Fund, the 2009th (BPM6). Accordingly, data for year 2012 and 2013 are corrected. ⁷ Since September 2010 methodology for the external debt statistics has been changed. NBS has revised the data to the external debt since 2009. ⁸ GFS-1986 methodology. ⁹ Data on foreign currency savings since December 2012 according to new methodology of NBS. ¹⁰ SORS changed data for employment. Without registered individual agricultural workers. ¹¹ Population aged 15 and above. Since 2015 yearly data according to the new methodology, calculated as an average of the four quarters. ¹² New methodology for salaries, SORS applied from January 2009, from January 2018 the average salary is calculated on the basis of data from the Tax Administration records. ¹³ Since 2012 with professional army servicemen. ¹⁴ Data refers to January-June.

Table 2. Industry, by MIGs, growth rates in %

Growth rates	VII 2021 VII 2020	I-VII 2021 I-VII 2020

¹ Since September 2010 methodology for the external debt statistics has been changed so that the external public debt includes obligations under the IMF SDR allocation, which was used in December 2009, as well as capitalized interest to Paris Club creditors, while the loans concluded before December 20, 2000, under which the payments have not been effected, are excluded from the external debt of the private sector. ² NBS has revised the data to the external debt since 2009. ³ On October 1, 2020, the Statistical Office of the Republic of Serbia released the preliminary results of the annual GDP calculations for 2019, as well as the final data for 2018, and the data series from 2015 to 2017 were made compliant with the results of the Supply and Use Tables.

¹ New methodology for salaries, which is applied from 2009 as SORS extended coverage of observation units. In calculation of average salaries, beside salaries paid to employees in enterprises, institutions and organizations, into account are taken also salaries paid to entrepreneurs, from January 2018 the average salary is calculated on the basis of data from the Tax Administration records. ² Every year in Health and social work section half of salary is paid in December and another half in January. ³ Since 2012 with professional army servicemen.

* Adjusted contracted amounts include changes that occurred during the implementation of financed projects, determined by the final calculation at the handover of the performed works, due to deficiencies in relation to the contracted quantities of works and realized savings, etc. Also, deviations may occur by automatic cancellation of unused funds when the loan availability period expires or at the request of the borrower. The adjusted contractual amounts represent the principal to be repaid.

**For the purpose of protection against foreign exchange and interest rate risk, a hedging transaction (interest rate and currency swap) was realized, by which the liabilities of the Republic of Serbia on the basis of a ten-year bond issued in the amount of USD 1.2 billion at a coupon rate of 2.125% were converted and presented in euros, at a significantly lower interest rate of 1.066%.

***Hedging transaction (interest rate and currency swap) was realized - original loan currency is shown in EUR

METHODOLOGICAL EXPLANATIONS

IV

ECONOMIC, FISCAL AND STATISTICS OF PUBLIC DEBT

1. Economic statistics (tables in Chapter I, Macroeconomic Developments) are based primarily on the statistical methodology and data provided by the Statistics Office of the Republic of Serbia, National Bank of Serbia, National Employment Agency, Privatization Agency, Belgrade Stock Exchange, Pension and Disability Insurance Fund of the Republic of Serbia etc.

Economic Statistics contained in the Chapter I includes: main indicators of macroeconomic developments in the annual and monthly dynamics for the current year; gross domestic product (GDP) in constant prices and its growth rates by quarters and usage of GDP; trends in physical volume of industrial production in monthly dynamics (total, by sections and economic purpose); consumer prices trends in annual and monthly dynamics; developments of overall consumer prices (in total and by components) in monthly dynamics for current year; producer prices of industrial products for domestic market and for export in annual and monthly dynamics; developments of exports in monthly dynamics; prices of external trade in annual, quarterly and monthly dynamics; developments in Foreign direct investments in quarterly dynamics; external debt in annual dynamics and in last month of current year; balance of payments in annual and monthly dynamics; monetary survey by years; main monetary indicators, household savings and foreign exchange reserves, total number of employed and unemployed and average net salaries and pension benefits (in dinars and annual real growth rates) in annual and monthly dynamics; an overview of privatization results in annual dynamics and for a specific period of the current year for which there are available data; an overview of trends of indices; market capitalization and foreign investors participation in total turnover on Belgrade Stock Exchange; an overview of turnover of securities on the Belgrade Stock Exchange; an overview of auctions of Republic of Serbia treasury bills in annual dynamics and on daily basis.

2. Fiscal statistics (tables in Chapter II Fiscal Developments) is based on the GFS methodology and data of the Ministry of Finance, Treasury Administration and Public Debt Administration.

Starting from Memorandum on the Budget and Economic and Fiscal Policy for 2009 with projections for 2010 and 2011, IMF methodology – Government Finance Statistics is used to present and create projections for fiscal aggregates. All data in this bulletin have been computed by using the same methodology basis.

The main objectives of alignment with methodology of Government Finance Statistics is the possibility to perceive macroeconomic implications of fiscal policy. It is particularly important to perceive the influence of fiscal policy on domestic demand, hence every item of revenues and expenditures is considered from its aspect, regardless of its classification in accounting.

Here is a comparative overview of the previous and the new methodology of government finance statistics.

1. The level of observation is consolidated government sector that comprises the following levels of government: the central government – budget of the Republic of Serbia and Social Security Organizations; local government – budget of the Autonomous Province of Vojvodina and budgets of municipalities and towns; public road company Putevi Srbije and Koridori Srbije Ltd.

2. Coverage of data: beside budget resources, application of this methodology in computation of fiscal aggregates includes other sources of financing – a part of own resources of government bodies, donations, loans and privatization receipts. The previous coverage included only budget resources and expenditure financed from budget resources.

3. The method of computation of results: The deficit or surplus of consolidated government sector is the difference between revenues and overall expense plus net budget borrowing. The category of net lending is treated as an expense in cases when the purpose of the spending is implementation of a government policy, while if expense is made in order to manage liquidity, it becomes a financing item, without any influence on the government's result.

4. The difference in accounting and statistical coverage of particular items of expenditure: in view of the primary objective – gaining insight into macroeconomic implications of the fiscal policy, particular items of the expenditure, e.g. repayment of debt to pensioners, which is treated in accounting as a part of repayment of debt – without influence on the result, statistically is treated as transfer to citizens and on ground influences increase in domestic demand. Mobile telephony license, treated in accounting as current non-tax revenue, in view of its one-time character is now treated as part of financing.

With advancement of accounting base – i.e. with transition to accrual basis in recording government transactions – conditions will be created for further enhancement of government finance statistics methodology and for alignment with the EU (ESA 95).

The Ministry of Finance is responsible for collection and processing of fiscal data. Fiscal statistics includes: consolidated balance of the general government sector and particular balances, i.e. budget of the Republic of Serbia (central government), budget of AP Vojvodina, budget of local authorities, financial plans of social security organizations, public road company Putevi Srbije and Koridori Srbije Ltd.

General government. General government sector comprises all the levels of government in the country. Subsectors that form general government include: central government – budget of the Republic of Serbia, provincial government – AP Vojvodina, local government – municipalities, towns, social security funds, public road company Putevi Srbije and Koridori Srbije Ltd. Fiscal statistics, with regard to the individual state subsectors, is especially significant for the understanding of interrelation between different governmental levels, separation of functions as well as division of revenues. It is important to determine the amounts and the flow of transfers between governmental levels, which is achievable only owing to the individual and separate balances of all governmental levels. However, only the data presenting the entire general government may provide the information concerning the amount of fiscal operations of the state, consumption of the state and its influence on aggregate demand and total macroeconomic stability, reallocation of collected funds originating from other economic sectors, burden of taxation of the economy, tax structure etc.

Central government – budget of the RoS. Central government comprises all the ministries, agencies, and other special organizations defined as direct or indirect public budget beneficiaries.² The Government may define and achieve set goals concerning economic policy at the level of the entire country, primarily through the implementation of certain measures and programmes by the means of the budget of central government. Other governmental levels do not economic policies concerning the national level. The more centralized is the country, the more significant are the data related to this level of government³.

AP – Vojvodina. Budget of AP Vojvodina comprises all governmental authorities and other special organizations defined as AP Vojvodina budget beneficiaries.

Local self-government. Data concerning local self-government relate to the data collected in all cities and municipalities constituting the local self-government system. The coverage of data at the level of cities or municipalities relate to all direct or indirect budget beneficiaries of a city or a municipality. The budget beneficiary of a city or a municipality is an institution primarily financed from the funds originating from the local government. Local government controls its business activities and it performs certain functions through the institution⁴.

Social security organizations. Social security organizations include the Pension and Disability Insurance Fund, Republic Health Insurance Fund, Military Health Fund and National Employment Service.

Public road company Putevi Srbije. Revenues of Putevi Srbije have the character of public revenues (toll and transfers from republican budget), and repayment of a large part of the company's debt takes place from the Republic of Serbia budget, therefore the company is treated as a part of the general government sector.

Koridori Srbije LTD. are a Government owned company, responsible for investment in road infrastructure.

BASIC FISCAL AGGREGATES

Basic fiscal aggregates are total public revenues, total public expenditures, and the result of the difference between these two categories, which is defined as surplus or deficit in the consolidated balance of general government or balances of individual governmental levels.

Total public revenues are divided into two basic categories: current revenues and yield on capital.

Current revenues are divided into tax and non-tax revenues.

The basic characteristics of **tax revenues** is their mandatory nature and non-existence of any direct reciprocal service for the payment of taxes. The state collects taxes finances certain state functions from collected funds. The benefits related to certain

² Indirect public budget beneficiaries are primary and secondary schools, faculties, scientific institutes, social welfare institutions, cultural institutions and other institutions partly financed from the Republic budget.

³ The largest amount of tax revenues, apart from property taxes, pertains to the budget of the RS. Income tax is renounced in the legally defined percentage to the local self-government, whereas a part of the revenues collected from income taxes realised in the territory of Vojvodina pertains to the AP Vojvodina. This shows the importance of the central governmental level in the country.

⁴ Primary and secondary schools pertain to the central government as their financing is mostly provided from that level. A part of material expenses of schools is financed from local self-government funds but not in the extent sufficient for pertaining of these institutions to the local government. Pre-school institutions are local budget beneficiaries. When reviewing data regarding their revenues and expenditures, they are included in the local government level.

functions cannot be directly connected to an individual who paid the tax.

Income tax comprises wage tax, as well as taxes on other forms of earnings of individuals, beside the wages.

Corporate income tax comprises, in addition to corporate profit tax narrow meaning of the term, also tax on dividends paid to the residents and non-residents, as well as the tax on interests, royalties and capital incomes realized by non-residents.

VAT comprises national VAT, import VAT, and the arrears of turnover taxes from the previous years.

Excise duties present consumption taxes concerning specific products such as oil, tobacco, coffee, alcoholic beverages etc.

Customs duties and other import duties comprise revenues from duties paid for import of goods and services, with the exception of the VAT on imported goods that is included in VAT revenues.

Other tax revenues comprise taxes on use, ownership and carrying of goods, and other taxes. The property tax of local government is included in the category of other tax revenues in the general government consolidated balance.

Non-tax revenues are heterogenic category of revenues including property revenues (collected interest, rental fees) compensations, taxes, fines and other revenues that cannot be classified. As opposed to tax revenues, non-tax revenues imply the existence of reciprocal favour for the sum collected - e.g. the compensation for the usage of natural resources. However, there are revenues that may by their characteristics be classified as non-tax revenues, but without implying the reciprocal favour for the collection. Fines are a typical example of this sort of revenue.

Capital revenues comprise only revenues originating from the sale of capital goods, as well as the capital transfers from non-governmental institutions. The sale of capital goods imply the sale of non-financial assets, buildings, inventories and state-owned land.

Total expenditures in the Bulletin of Public Finance are presented according to the economic classification emphasizing the type of expenses, i.e. its economic characteristics and influence of state consumption on the market of goods and services, financial market and reallocation of income. In addition to the economic

classification of expenditure, there is also a functional classification emphasizing the function the state performs by using of funds for specific purposes⁵. The Bulletin of Public Finance does not contain expenditures classified in accordance with the functional classification.

Overall expenditure is divided into current expenses, capital expenses and net budget borrowing.

Current expenses present final budget outflows, and are not intended for the procurement of non-financial assets.

Compensation of employees comprise (net) salaries of employees including income tax and contributions paid by employees, contributions paid by employers, as well as other fringe benefits (transport allowance, sick leave allowance for the period up to 30 days etc.).

Procurement of goods and services comprise payments related with coverage of business expenses (electricity, phone bills etc.), business trips, services contracts, current maintenance and procurement of material.

Repayment of interests is divided into repayment of interests on domestic debt, interests on external debt, interests based on activated guarantees and accompanying borrowing expenses.

Subsidies comprise all the funds transferred to the economic sector (public enterprises, registered agricultural holdings etc.) for the coverage of running expenses or/and the grant intended for current business activities.

Social insurance and social welfare expenses include payments to person insured with social security organizations (pensions of beneficiaries of Pension and Disability Insurance Fund, sick leave benefits paid by the Republic Health Insurance Fund, unemployment benefits paid by the National Employment Service, Repayment of debt to pensioners, children and family benefits, benefits for war-disabled persons, pregnancy leave benefits, housing benefits, Military Health Fund expenditures etc.

Other current expenses include grants to non-governmental organizations, mandatory levies and penalties imposed by one governmental level to another, fines and penalties imposed by courts and judicial bodies, injury compensations or compensations for damages incurred by natural disasters, and damages incurred by the public bodies.

⁵ Division of expenditures according to the functional classification is the following: general public services, defence, internal security, economic affairs, environmental protection,

housing construction and municipal services, healthcare, recreation, culture and religion, education and social welfare.

Capital expenses comprise all the payments intended for the procurement of non-financial assets, construction of buildings and infrastructure, procurement of equipment and inventories and the purchase of land.

Net lending are expenses for purchase of financial assets whose objective is implementation of a particular government policy.

General government consolidated balance contains consolidated revenues and consolidated expenditure.

Consolidated revenues are aggregate revenues of individual governmental levels, but in the consolidation procedure, transfers received from other governmental levels are excluded. In the consolidation procedure, benefits paid by general government in the function of employer are excluded from the revenues of mandatory social insurance organizations.

Consolidated expenses present aggregate expenditures of individual governmental levels, while in the consolidation procedure, transfers provided from one governmental level to another are excluded. In the consolidation procedure, expenditures paid by general government in the function of employer are excluded from the expenditures.

Consolidated surplus / deficit is a difference between consolidated revenues and consolidated expenditure.

Balance surplus/ deficit of individual governmental levels is a difference between total revenues and total expenditures, at a particular governmental level.

Earnings not included in the revenues of general government present earnings based on domestic and external borrowing and earnings based on the privatization of state-owned enterprises.

Expenses that are not included in general government expenses are those for repayment of principal of national and foreign debt and expenses for purchase of financial assets that cannot be classified as net lending.

3. Public Debt Statistics (Tables in Chapter III – Public Debt) is based on the data of the Republic of Serbia Treasury Administration. The public debt of the Republic of Serbia consists of direct liabilities (received loans) and indirect liabilities (issued guarantees).

Direct Liabilities

Direct Liabilities of the RoS are those incurred on the basis of the loans taken. Direct liabilities, depending on the creditor, constitute the following: (1) domestic debt and (2) foreign debt.

Domestic Debt consists of liabilities carried over from the past, and liabilities stemming from short-term treasury notes. The largest share in the domestic debt is the one of the frozen foreign currency savings, which also constitutes the largest individual debt in the public debt of the RoS.

Foreign Debt consists of (1) rescheduled old debt and (2) new borrowing.

The rescheduled debt consists of: (1) the debt towards International Bank for Reconstruction and Development (IBRD, A, B, C), (2) debt towards the Paris Club of Creditors, (3) debt towards the London Club of Creditors, (4) debt towards Council of Europe Development Bank (CEB).

1. Indirect Liabilities

Indirect liabilities of the RoS are those incurred on the basis of the issued guaranties. Due to the fact that the guarantees that have been issued up to date were related with loans taken from foreign creditors, total indirect liabilities fall under the category of foreign debt.

Public Debt to Gross Domestic Product Ratio

Debt to GDP ratio is one of the most important indicators of the public debt sustainability and one of the convergence criteria for joining the EMU.

Structure of Interest Rates

The ratio between the fixed and variable interest rates in the public debt of Serbia is distinctly favourable. High share of the fixed interest rates provides high level of predictability of future liabilities arising from the interest and thus the Republic of Serbia is not exposed to the interest rate risk.

The Public Debt Currency Structure

The public debt consists of different currencies. The largest share, however, is the debt denominated in Euros and US Dollars.
